Only in prison.
In a free society, criminals don't wait in lines for anything.
Generally, not to get gun permits, or to check out
popular their guns, or to have "waiting periods" for
background checks.
Criminals, by definition, do not obey laws. That's why
gun laws don't reduce crime. The only people affected by
such laws, and who pay for the resulting consequences, are
the law-abiding.
Don't own a firearm? If you choose not to, by all means let
someone else or defer your constitutional freedoms to make
that choice.

DO ROBBERS, RAPISTS AND MURDERS WAIT IN LINES?

Only in prison.

In a free society, criminals don't wait in lines for anything. Certainly not to get gun permits, or to obediently register their guns, or to honor "waiting periods" for background checks.

Criminals, by definition, do not obey laws. That's why two decades of exhaustive crime studies prove restrictive gun control laws don't reduce crime. The only people affected by such laws, and who pay for the resulting bureaucracy are the law abiding.

Don't own a firearm if you choose not to. But never let anyone deny or delay your constitutional freedom to make that choice.

DEFEND YOUR RIGHT TO DEFEND YOURSELF.
