

Creative Expressions Assignment Drop Box

The purpose of this assignment is to encourage students to use their creative skills to interpret a nursing theory. Students will work in groups of two to three to produce this assignment. By lottery, student groups will choose the nursing theory. It is expected that the portrayal of the theory will vary but categories such as art, music, dance, and drama may be used.

Each team member must submit a type-written summary containing the following: 1) a 250 word or less summary explaining how the creative expression relates to the theory, 2) a summary of each team members contribution to the project and overall rating of this contribution: 3-excellent; 2 average; 1-poor, and 3) a reference list with a minimum of two peer reviewed/scholarly resources, from the last 15 years, that were used to create the project.

This written assignment can be a one to two page document .

Open the blue link Creative Expression Assignment, and submit below under assignments > attach files. Submit as a .doc or docx document.

The group will present the creative expression to the class and explain the correlation to the theory. This whole process should not exceed 8 minutes.

DUE: Start of class the last week of the course.

This assignment will be graded as follows:
