### Assignment 3: Adding Web-Based Technology to a Classroom

Review the article *Best Practices of Web Tool Integration in Schools* by David R. Wetzel by navigating to the [website](#) or see attachment.

How comfortable are you with using the web in the classroom as described? Explain ways you have used or seen others use the web in the classroom. Identify and elaborate on three obstacles you face or others often face when integrating web-based strategies. Explain steps could you take to overcome these obstacles.

Take an existing lesson that you would like to integrate one of the following web-based strategies: Google docs, Wiki, blog, podcast (podbean.com is a free user friendly service). Describe how you would utilize these features to engage students and create skills they can use in a technologically advanced society.

You will need to develop an example of the use of one of these technologies (e.g., create a podcast, Google doc project, Wiki, etc.) and email me the object or provide a link for me to view the assignment.

There are many ways in which you could complete this assignment. Please email your plan for my approval before you begin the process; this will ensure that you are on the right track and alleviate any concerns about whether your task is acceptable for this assignment.

This assignment should be 3-5 pages (not included title and reference) in length and submitted in APA format (please include a title page with a running header and reference page). Please be sure to utilize your course textbooks and outside resources to strengthen your position.

#### Adding Web-Based Technology to a Classroom Grading Rubric

Criterion	Pts.
1. Includes a discussion of student's level of comfort and use of the web in the classroom	(25 pts)
2. Identifies and discuss three obstacles for integration and possible responses	(25 pts)
3. Discusses the use of a web-based strategy and provides an example of a lesson; includes the web-based example (e.g. blog, webquest, google docs, etc.)	(25 pts)
4. Paper meets the minimum page requirement (minimum of 3-5 pages of written work-not including title and reference page); includes outside resources to support points (please utilize your texts and scholarly research); submitted in APA format (which includes title and reference page); and is submitted on time	(25 pts)
