ESSAY III
Guidelines and Rubric
ENG 095/111

What are the characteristics of sustainable green design?

III. Guidelines

In a college essay you use the knowledge you have gained from class reading, discussion, note-taking, visual media, and thinking to make an argument or point in a writing. For the these essays you should be exploring issues of sustainability from a personal perspectives informed by the learning we are doing through the course.

For this essay you should use the essays, video, and websites to critically reflect on the following question: What are the major principals of sustainable green design and why are they important to creating a sustainable planet? Some things to consider

- What in your own life can you make concrete contributions that include principals of sustainable design ?
