

RESEARCH PAPER

Instructions

- Put your topic at the top of the page.
- Research papers present the information that you discover by research only. They do **not interpret** the information researched. In some cases critical analysis may be appropriate. Opinion and feelings are never appropriate
- Personal anecdotes are **never** appropriate.
- This is a 1-2 **page paper**, and a bibliography of sources.
- The style is research paper reporting so does **not include** personal opinion or the use of the first or second person.
- **Each page** should be labeled with your name and the page number.
- Font should be strictly academic (Times, Calibri, Arial) and size 12.
- Line spacing should be 1.5
- APA style format

Research and Sources.

- Sources must be credible and academic.
- A source cannot use the second person “you” or “one”.
- If the source has a clear bias or agenda it must be stated in the Bibliography.
- Sources must be directly pertinent to the topic.
- Do **not** include background reading as a source.
- Never include Wikipedia or like sources.
- All sources **MUST** be cited in the paper.
- Citations and Bibliography can be in any format as long as it is consistent through the paper.
- **All statements of facts** must have a source citation.
