
Fall 2021 ENVI 3131-2 – Environmental Impact Assessment I
Assignment 1 - Due Date: September 10, 11:59pm on Moodle.

Assignment can be completed individually or as a group (submit one per group).

No.	Student ID	Print Name	Signature	Date
1.				
2.				
3.				

The purpose of this assignment is to help introduce you to how EIA is carried out in Nova Scotia.

Assignment 1

Review of the Steps Practiced under EIAs using the Case Study – Realignment of Marine Drive (Highway 316) Project

Please review Environmental Assessment for the Realignment of Marine Drive (Highway 316) Project, Guysborough County, NS and complete Part B of this assignment.

The Assessment can be found <https://novascotia.ca/nse/ea/Realignment-of-Marine-Drive-Project/>

Assignment Questions:

- 1 - Is a detailed description of the proposed project included in the EA (Registration Document)? If so, summarize it below. (only 3 - 4 lines. Short summary in your words.)
- 2 - What Class of Undertaking is this assessment?
- 3 - Was a baseline study included in the EA?
- 4 - What potential Valued Environmental Components (VECs) were listed for this project?
- 5 - Provide a short discussion of the mitigative measures for 3 of the VECs listed for this project.
- 6 - Was public consultation considered during the EA? If so, briefly summarize what was included.
