

Articles

Colvin, G. (2018, October 1). [How to spot the next financial crisis](#). *Fortune*, 9–10.

Retrieved from <http://fortune.com/>

- The full-text version of this article is available through the EBSCOhost database in the Ashford University Library. This article reflects on some of the causes of the Great Recession. More importantly, the author takes you into the future to discuss when and if another big recession will occur and what some of the triggers might look like. This article may assist you with your The Great Recession of 2008-2009: Causes and Responses assignment this week.

Committee for a Responsible Federal Budget. (2018, December 13). [The deficit has never been this high when the economy was this strong](#)

([Links to an external site.](#))

[Blog post]. Retrieved from

<http://www.crfb.org/blogs/deficit-has-never-been-high-when-economy-was-strong>

- This blog post discusses the current debt high level in relation to business cycles. The debt is climbing in a very healthy economy which is unusual as debt usually grows during down economies and recessions. This is an interesting perspective and may assist you with your Government Budget Deficits (Debate) discussion forum this week.

Holland, J., Leamer, E., & Rivlin, A. (2018, July). [Perspectives on U.S. fiscal policy](#). *Business Economics* 53(3), 124–133. <https://doi.org/10.1057/s11369-018-0083-3>

- The full-text version of this article is available through the Business Insights: Global database in the Ashford University Library. This detailed article discusses fiscal policies and their impact on the national debt. The article covers entitlements, healthcare, and the global bond market. The author artfully weaves these topics in to logically explain the impact of the growing national debt. This article may assist you with your Fiscal Policy and Government Budget Deficits (Debate) discussion forums this week.

Ponnuru, R. (2018, September 10). [Rethinking the recession: Blame the Fed's monetary policy](#). *National Review*, 70, 26–28. Retrieved from <https://www.nationalreview.com/>

- The full-text version of this article is available through the EBSCOhost database in the Ashford University Library. This article evaluates the underlying causes of the Great Recession and looks squarely at the Federal Reserve Bank. This author in part aligns with our textbook but still offers a slightly different perspective. This article may assist you with your The Great Recession of 2008-2009: Causes and Responses assignment this week.

Tooze, A. (2018, September). [The forgotten history of the financial crisis: What the world should have learned in 2008](#). *Foreign Affairs*, 97, 199–210. Retrieved from <https://www.foreignaffairs.com/>

- The full-text version of this article is available through the EBSCOhost database in the Ashford University Library. This article provides some valuable insights into the Great Recession and the lessons to be learned. This article discusses various countries and markets around the world to give you a more global view of the crisis. This article will assist you with your The Great Recession of 2008-2009: Causes and Responses assignment this week.

Wallison, P. J. (2009, June 1). [Cause and effect: Government policies and fiscal crisis](#) ([Links to an external site.](#))

. Retrieved from <https://www.aei.org/publication/cause-and-effect/>

- This article provides information about the causes of the Great Recession and how government intervention played a strong role in the housing crises and the eventual recession. This article may assist you with your The Great Recession of 2008-2009: Causes and Responses assignment this week. Accessibility Statement does not exist.
