

“The biggest challenge facing nation states in the 21st century is climate change”

What are the impacts of climate change on your chosen sector

Explain the two policies (Use answer from tutorial 3 to help)

1) The former Labor Government’s Carbon Tax

2) The Direct Action Plan (Funded by the ERF)

Impact of climate change policies on your chosen sector

1) What are the risks to the sector?

E.g. were firms liable to pay the carbon tax? How likely is it that they will be in the future?

2) What are the opportunities?

E.g. can firms profit with emissions reductions, new technologies ...

Outline adaptation strategies

What are some adaptation strategies or other corporate strategies for the sector/firm to position itself in a carbon constrained world?
