

UNIT SUMMARY RUBRIC

Marks	5-4 Exemplary	3-2 Satisfactory	1-0 Inadequate	Total /10
Content	<p>Demonstrates substance and depth; is comprehensive; shows mastery of material.</p> <p>Thorough with a plethora of good examples from simple to complex and demonstrating elaborate details.</p> <p>Every topic from the Unit Outline is elaborated in detail.</p>	<p>Adequately fulfills basic concepts of the unit; shows essential knowledge of material.</p> <p>Some variety of relevant examples, with some relevant details. More detail or complexity would be better.</p> <p>Most topics of Unit Outline are observed.</p>	<p>Inadequate coverage of unit topics; some topics unclear or completely ignored.</p> <p>Key examples are neglected. Few relevant examples presented, few relevant details.</p> <p>Some content is not correctly portrayed. Basic Knowledge is lacking or underdeveloped.</p>	/5 marks
Communication	<p>Strong design/organization demonstrated in visual presentation of key concepts. Every point is legible and clearly communicated.</p> <p>Appropriate language and proper form used throughout.</p> <p>In examples, each key step logically ordered. Instructions for steps are included where relevant.</p>	<p>Overall presentation of material is adequately organized. Main ideas are mostly legible.</p> <p>Language is clear. Proper form portrayed sometimes, and could be shown more consistently.</p> <p>Most key steps to solutions are observed. Adequate amount of explanation where relevant.</p>	<p>Limited visual organization of topics. Content is not always clear or easily legible.</p> <p>Language not always clear. Ideas are not always clearly portrayed. Proper form not portrayed consistently.</p> <p>Solutions are missing some key steps. Inadequate amount of explanation where relevant.</p>	/5 marks

UNIT SUMMARY

Assignment Instructions:

- Summarize all the key concepts of this unit and consolidate your knowledge.
- All key ideas and details should be elaborated with instructional steps where relevant, mathematical examples with step by step solutions written in clear language and proper form.
- Visually organize your information.
- This summary should be written as a reference guide for you when you need to study or relearn the material in the future.
- Use the rubric as a guide for what is expected.
- This will probably be handwritten so that proper mathematical notation can be more easily used.
- Use good examples, not just copying the examples given.
- Each person's summary should be unique.
