

BIOLOGY LAB ESSAY

<https://www.scienceintheclassroom.org/research-papers/rats-rescue>

Your summary must address all the following questions:

- What was the relevance of the study?
- What were the objective(s) of the study?
- What were the conclusions of the study?
- What results from the study supported their conclusions?

Your summary should be written in paragraph form and should be no longer than 250 words.

This assignment is graded based on effort. To receive full credit, you must fully and completely address each of these questions in your summary. Each question is worth 25%. Incomplete answers will only receive partial credit. If a question is not addressed, then no credit will be given for that question.

Summary Rubric					
Criteria	Ratings				Pts
Relevance	25.0 pts Full Marks Provides information regarding gaps in knowledge and how this work is relevant	20.0 pts Good Incomplete; needs additional detail to communicate relevance effectively	10.0 pts Needs work	0.0 pts No Marks	25.0 pts
Objectives	25.0 pts Full Marks Clearly outlines all objectives of the study	20.0 pts Good Missing an objective of the study or unclear	10.0 pts Needs Work	0.0 pts No Marks	25.0 pts
Conclusion	25.0 pts Full Marks Conclusion is clear and described giving a clear indication of significance,	20.0 pts Good Conclusion is stated but lacks depth and significance	10.0 pts Needs Work	0.0 pts No Marks	25.0 pts
Results supporting conclusion: What results from the study supported their conclusions?	25.0 pts Full Marks Data are summarized in a logical format and linked to conclusion	20.0 pts Good Results described but missing a connection to conclusion.	10.0 pts Needs Work	0.0 pts No Marks	25.0 pts
					Total Points: 100.0
