

## **BIS 202**

David M DiSabito Jr, MBA

### **Final Paper**

HW Assignment

#### **No Late Submissions Accepted**

Write a 2 page paper.

Based on our book and class materials we learned about: Business Process, Systems and Information. Chapter 2 of our text book paid special attention to these three parts of a business.

Your paper should answer the following 5 questions:

- 1.) **10** points - What is a Business Process?
- 2.) **10** points - What is an Information System?
- 3.) **10** points - What is Information?
- 4.) **10** points - What Factors Drive Information Quality?
- 5.) **50** points - Within the confines of a single business using ERP, **How are Business Process, Information Systems and Information related to one another?** This is the most important section of the paper, use real or hypothetical example(s) to support your thinking.
- 6.) **10** points – Quality of writing. Is your paper well written and easy to read?  
Hint: Have a proper **Title** for your paper, **an Introduction**, a **Body** and a **Summary**. Each of the subtopics above (1-5) should be a paragraph; each paragraph should have a heading.

Use minimum of **2** reliable sources (your textbook is ok to use as 1 source). Cite your sources.

Text of Paper must not exceed 2 pages. You will be graded on how well you communicate and support your ideas. Conciseness is appreciated and awarded.

MLA documentation format is preferred (double spaced). Below is helpful link for MLA format and citations:
