

Course Outline Template

Course Overview: This course is a basic introduction to community health. It will discuss the concept of community, vulnerable populations, and community improvement. The class focuses on public health issues, health assessment, and disease prevention. Topics that affect communities, such as at-risk populations, mental health, and cultural awareness, will be explored. Successful completion of this course will require individual and group participation.			
Weekly Course Module Topics (8 total weeks)	Weekly Key Concepts (1 concept per week)	Evidence-Based Active Learning Strategies (1-2 strategies per week)	Citation of Scholarly Sources Using APA Format (at least 1 citation per strategy per week)
1. Community Assessment	Defining the Community	Concept Mapping	Oermann, M. H., De Gagne, J. C., & Phillips, B. C. (2018). <i>Teaching in Nursing and Role of the Educator</i> (2nd ed.).
