

After reading *all* of chapters 7, 8, and 9, and viewing/reviewing the Opinion pieces in Module 4 respond to the following:

- 1.) Choose **ONE** specific topic from two different LOs (learning objectives) from *each* chapter (so, two each from chapters 7, 8, 9). ***You should be writing about a total of six topics for this prompt.*** The broader learning objective categories are: physical/cognitive/psychosocial development in emerging and early adulthood, middle adulthood, and late adulthood. As usual, summarize the topics you chose and briefly state why you chose to discuss it/what interested you about this topic in particular.

- 2.) Choose TWO of the FOUR opinion prompts in this week's module to respond to.
