

Chapter 14 Assignment

Please answer these questions to the best of your ability **using the information that you gathered from reading the chapter, along with information from your own work experience.**

Please do not copy and paste.

Please refer back to your StrengthsFinder results.

1. How have you been able to use your Top 5 Strengths in a team environment (either during class projects or at your previous or current workplace)? Please provide a specific example **for each of your 5 strengths** that illustrates how you used each of those strengths in a team setting. Remember, specific means: a one-time event, use STAR (Situation, Task, Action, Results).
2. When you have worked on a group project in college, you more than likely have experienced free riders. How could you use any of your top 5 strengths **(just need to talk about 1 of your strengths)** to better handle free riders? Be specific with your answer and make sure you talk about how using your strength(s) could help you resolve the free rider issue.
