

Chapter 15 Assignment

Please answer these questions to the best of your ability **using the information that you gathered from reading the chapter, along with information from your own work experience.**

Please do not copy and paste.

1. Please click on the link below and read the brief article about Feed-Forward, Concurrent, and Feedback control.

How would each of your 5 StrengthsFinder Strengths relate to these 3 different control mechanisms?

(Note: Please provide 1 specific example for each of your strengths. Based on the examples, you will then identify how you used each strength as a control mechanism in the given situation. Some of you may tend to be more proactive and, therefore, give examples that illustrate all (or most) of your strengths as a feedforward control, or you might have 2 examples in feedforward, 2 in concurrent, and 1 in feedback, and so on).
