

SCH3U – CULMINATING ASSESSMENT PART 1

NAME _____

REPORT DUE DATE: Tuesday, August 25th, 2020 @ 11:00 pm

PRESENTATION DUE DATE: Friday, August 28th, 2020 @ 9 am

Rationale:

Due to the aging baby boomer population, companies and organizations are preparing for a wave of retirements that may decimate their rosters of experienced technical workers. In order to ensure that they have workers ready to fill these positions and ease the transition they are recruiting early and aggressively.

Assignment: *So; you want to work in a field related to chemistry!!!*

Step 1: Pick a career in chemistry or a career requires chemistry education that would interest you.

- a) A job description
- b) The average salary/wage
- c) Skills and education required
- d) A company/organization where you would likely be employed
- e) Any information about career prospects (growing sector, declining sector)
- f) Likely career path(s) (e.g. start as glass scrubber in a lab and retire as the Director of Research and Development)
- g) Potential on the job hazards
- h) Potential job perks (travel, paid education, benefits, awards)

Step 2: Prepare a report which explains/answers the above aspects of the profession you have chosen. **Your report must be in 12 fonts and with double space, minimum 6- maximum 9 pages (excluding title page) with New Times Roman.** You have to meet with your teacher at least one time during the preparation of your project to share your up-to-date progress.

Step 3: Prepare a power point presentation to your classmates to encourage them to pick the career you chose.

*** Your assessment will be based on:

1. The report you have prepared. (50%)
2. The presentation you will make in the class. (50%)
