This assignment was locked Dec 9, 2018 at 11:59pm.

Deep Sea Mining Extra Credit

This optional assignment is worth up to 20-points if you do a good job. Points will be deducted for inadequate work. If you choose to do this assignment please follow the directions carefully.

Directions: Do some research about Deep Sea Mining and address the following criteria with a mini essay of at least 300 words.

1. Answer the questions:
 - What is deep sea mining?
 - What minerals are mined?
 - What methods are used to mine these minerals?
 - Where in the ocean is deep sea mining taking place?
2. Describe the environmental impacts of deep sea mining?
3. Explain the controversy - does everyone agree with it?
4. Explain your own opinion on the issue of deep sea mining?
5. Use at least 3 references and be sure to utilize in-text citations within the body of your essay and list your references as complete citations at the bottom. This mini essay is due anytime between now and December 9th at 11:59 PM PST.
