

I promise that all work on this quiz will be ~~made~~ my own, and I will not share my work or knowledge with anyone else in anyway, directly or indirectly.

I will abide by the rules and act in the spirit of the rules. I will use only my brain, my hand written paper notes, the lecture notes, our math 123 textbook and calculator. I will take the quiz in a quiet room free of distraction or use a headphone. I am encouraged to leave my webcam on during the quiz for the sake of transparency.

I will not participate in any form of academic dishonesty. The only communication permitted during the quiz will be via webex chat privately with Lily. I will mute myself during the quiz. I understand that only answers submitted before the close of quiz are accepted. My scanned written work accompanying the quiz is to support that I can solve quiz questions myself.

I acknowledge that any form of academic dishonesty will be reported to STEM and the Dean of Arts and science and stored as permanent record of the University.
