

## **CRIJ 5330 Planning & Evaluation**

### **Evaluation Report Review**

In this assignment, you will find an evaluation report written about criminal justice organizations, programs, or policies. Then you will review this report to assess its evaluation research design. In your review, you need to write about the identification of problem and stakeholders, its' theoretical approach (postpositivist, pragmatist, constructivist, and transformative paradigm), its' methodology (evaluation types), data collection strategies (quantitative or qualitative), data analysis, and presentation of findings and recommendations. You will analyze the evaluation report with applying the knowledge we discussed during class. You need to talk about strengths, weaknesses and limitations of the report in your review. Your review should be 3-5 pages (excluding references), double space, Times New Roman, 12-point font size, and APA style in your citations and references. Please let me know if you have any question.
