

The Policy Analysis #GEA1 requires you to write a policy brief to Governor Scott about the market for organs. Your analysis must be 3 FULL pages of text (at least 3 no more than 4), double-spaced, 1" margins, and size 11 Calibri FONT. Title/title page is not included in page count. Graphs, tables, images, and references page should be included at the end of the text and are NOT to be included in the page length requirement. The governor asks that you draw upon your critical thinking and problem-solving skills in order to break down the complex problem that exists in the market for organs and help him examine, propose, and support potential solutions. You are encouraged to propose an original solution or contribution even if it deviates from mainstream solutions

Students are asked to play the role of economic policy advisor to the Governor of Florida and required to summarize and evaluate economic/market conditions as well as offer a creative solution to current policy issues related to those conditions. They are expected to draw upon analytical, critical thinking, and problem-solving skills in order to break down the complex problem that exists in the policy application and help the Governor examine, propose, and support potential solutions. Students are encouraged to propose an original solution or contribution even if it deviates from mainstream solutions. [Click here for additional #GEA1 Assignment Details](#) Make sure to include a title page and an updated citation page (both should be on their own pages and not share a page with the body of the text). Your document must follow formatting rules (font, spacing, margins, etc),
