

CS 395 HOMEWORK 7
Due: 4/8/19 (Monday)

Read the article “Five Things We Need to Know about Technological Change” by Neil Postman. It is actually a speech he delivered to a group of theologians and religious leaders in Denver, Colorado.

Identify three passages in the article that are interesting to you. Do you agree or disagree with his points? Why? Postman’s article makes use of examples from the past. Use modern day examples to make your argument.
