

**Wilkes University**  
**EES 105 – Global Environment**  
**Fall 2018**

**Lab # 8**  
**Lands at Hillside Farms Field Trip**  
**Rubric**

**DUE DATE:** October 29-30 at beginning of lab (**late submissions** will result in a **loss of 25 points**).

**Student Name:** \_\_\_\_\_

**Lab Section (Circle 1)**

|              |        |          |         |
|--------------|--------|----------|---------|
| Monday       | Monday | Monday   | Tuesday |
| 10am – 12 pm | 1-3 pm | 3 – 5 pm | 9-11 am |

**PERFORMANCE ANALYSIS:**

In your lab write up, please **restate each question/topic** (in bold) with your answer following each question.

| LAB REPORT ITEM                                                                                         | POINTS AVAILABLE | POINTS EARNED |
|---------------------------------------------------------------------------------------------------------|------------------|---------------|
| 1. Explain the history of the Lands at Hillside Farm.                                                   | 20               |               |
| 2. Explain the current farming/dairy practices.                                                         | 20               |               |
| 3. Explain at least 4 “green initiatives” occurring on the farm                                         | 20               |               |
| 4. Do you think the farming practices of Hillside Farms can be done on a larger scale – why or why not? | 20               |               |
| 5. Professional Quality of Writing                                                                      | 20               |               |
| <b>TOTAL</b>                                                                                            | <b>100</b>       |               |
