

10. A poll of 1015 U.S. adults were asked if they believe people should pay sales tax on internet purchases. 437 said they supported a tax.

do
this
last

~~State H_0 & H_A~~
{ Does the data provide convincing
evidence that less than 45%
support such a tax? Explain

State H_0 & H_A

Which is the original claim?

What is the p-value?

Should you reject H_0 ?

Now answer the first question.
