Home > My courses > HRM 440/LECT/OF01-2021/SP/Adult Programs > Tile 7 > Case study 2

Case study 2

After clearly setting forth the answer(s) to the chapter question assigned, conduct legal research and find one (1) legal case (**no more than two (2) years old**) that connects to the chapter question assigned. Summarize the employment law issues found in the researched case and explain how the case found connects to the chapter question assigned from the textbook. Your research must confirm that the decision reached in the case has not been modified or reversed since. Your submission should not be less than 500 words or exceed 600 words, and should include proper citation and reference to external sources used.

Respond to SCENARIO 3 at the beginning of Chapter 13 and use your responses as the basis for conducting the research directed above.
