

1. Logic Assignment – Brush your teeth
2. Logic Assignment – Take out the trash.
3. Logic Assignment – Watch Spider-Man: Into the Spider-Verse on Netflix
4. Logic Assignment – Set the table for dinner.
5. Logic Assignment – Do a load of laundry.

Write a detailed and obvious step by step procedure on all above 5 topics. Depending on the top write as much as you can, there is no limit, but each should be more than a page long.

Below is an example/demo of such assignment.

Logic Assignment – Make a PB&J Sandwich

PB&J sandwich is basically peanut butter and jelly sandwich, usually the sandwich is made using white bread. Here PB stands for peanut butter and J stand for jelly. Sandwich is basically a small meal made from two pieces of bread.

Assuming you have all the ingredients and utensils for making the sandwich.

Steps for making the sandwich.

- 1) Collect all the ingredients and utensils.
 - i) Use a plate, butter knife and optional gloves.
- 2) Put gloves on your hand for added sanitary factor or wash your hands thoroughly before touching any of the food.
- 3) Take out bread packet and open it.
 - i) Take out two slices of bread and place it on the plate side by side.
- 4) Open the container of both jelly and peanut butter.
 - i) Take the butter knife, put it inside the container and stir the PB&J out and distribute them onto both slices of bread.
 - ii) PB is mostly of two kinds crunchy or smooth, here we are assuming to use the smooth one.
 - iii) Jelly can be of any fruit flavor, assuming we are using grape.
- 5) Combine both slices, facing the side with the PB&J towards each other, and try to match both slices as close as possible so that the crust is evenly matched on both sides.
 - i) Crust is the outer layer of the bread.

6) We can enjoy the PB&J sandwich.
