Dear JPS Family,

Welcome to Jackson Public Schools (JPS)! Whether you are continuing your journey with us as a scholar, parent/guardian or educator, or joining us anew, I am thrilled that you're a part of the JPS family this school year. I'm especially pleased to welcome those of you returning after the emergency closure this past spring. The COVID-19 pandemic forced us to end the school year abruptly and to promote and graduate scholars in a manner very different from our normal celebratory practices. For as much as we attempted to remain connected virtually, many have remarked how much they miss the sense of community that we experience when we're in the same physical space.

Now that we're reopening our schools, businesses, and communities, we've had to make some adjustments. While we continue to provide many opportunities for our scholars to develop the essential knowledge, skills, and habits of mind that will ensure their success in life, we are shifting more of their learning experiences to a virtual platform. This new age of education will require some additional and different expectations of us, and we appreciate your support as we navigate these uncharted waters to create our new normal.

To build and maintain a strong connection between home and school, we will utilize our website, our automated messaging system, and social media platforms to communicate relevant information with our parents/guardians. In addition, our school-based teams are available by phone and email if you have any questions about our programs, services, or expectations for scholars. Let's work together to maintain open and constant communication.

This Student Code of Conduct and Handbook informs scholars and parents/guardians of our expectations and practices. It provides guidance for student interactions and is grounded in the District's core values of EQUITY, EXCELLENCE, RELATIONSHIPS, GROWTH MINDSET, RELEVANCE, and a POSITIVE and RESPECTFUL CULTURE. All JPS family members are encouraged to review this guidance and to do your individual part in making JPS great, regardless of whether we're engaging with one another virtually or in person. We value parents/guardians as partners in education, and we look forward to working closely with you to create the kind of environment in which our scholars will thrive and succeed beyond our wildest dreams.

Thank you for choosing Jackson Public Schools.

HANDBOOK GOALS

Developing world class students and guiding student behavior are the cornerstones of this handbook. The contents of the revised ***Student Handbook: Rights, Responsibilities, and Code of Conduct*** are in effect during regularly scheduled school hours, as well as at other times and places, including school sponsored events, field trips and athletic functions where school administrators have authority over students or the behavior has a direct effect on the order of the school. Policies and procedures contained within this handbook are subject to modification by the Jackson Public School District's Board of Trustees as deemed necessary.

The goals of the handbook are to—

- Share policies, procedures and best practices to ensure that students and parents understand and support our goal of academic excellence and a high quality education for all students.
- Share expectations of respectful and responsible behaviors;
- Share school and community resources for students, parents and families;
- Identify steps of responses and interventions regarding student behavior; and
- Provide the student appeals process and procedures for disciplinary action.

Copies of the handbook will be available in your school's main office, the library, the counselor's office, and in each classroom. Please use this handbook as a guide for maintaining a positive learning environment.

CONSENT UPON REGISTRATION

By registration of your child (children) or any student in the Jackson Public School District, all parents, legal guardians, and students do hereby consent to and agree to obey and follow rules and regulations contained in the ***Student Handbook: Rights, Responsibilities, and Code of Conduct*** to carry out the orderly educational process of the school. Further, such parents, legal guardians, and students agree to abide by and follow all procedures and / or school board policies as are obtained in the official policy handbook located in the Office of General Counsel, located at 662 South President Street, Jackson, MS 39201.

STUDENT CONDUCT

The Jackson Public School District Board of Trustees firmly believes that a positive school culture promotes equal educational opportunity and establishes the framework for a safe learning environment. Students have a right to a public education, but with this right comes personal responsibility. Education is a process that requires a safe and orderly environment, and students have a responsibility to know and to respect the rules and regulations of the school. Students are responsible for conducting themselves in an appropriate manner at all times. Students who obstruct any teaching, administrative, or extracurricular activity whether in school, on the playground, at a school-related event or activity, or en route to or from school shall be subject to such disciplinary procedures as set forth by the superintendent.

SECTION 1: INTRODUCTION

Under the leadership of the Board of Trustees, Jackson Public Schools is committed to graduating all students to be college and / or career ready. This is achieved through fostering positive, nurturing and engaging learning environments. We aim to equip our students with the knowledge, skills and resources to compete on a global level. We are also committed to maintaining a safe school environment for students and teachers.

This handbook provides a framework for academic standards and positive student behavior. The contents promote positive, supportive and inclusive learning environments that maximize students' academic achievement and minimize students' behavior issues. It explains the expectations, rights and responsibilities of all members of the school community. The handbook creates a structure where students, parents and teachers forge education partnerships and relationships critical to students' success.

Good conduct and behavior are essential to academic success; however, good behavior is not something that just happens. Expected behaviors – like reading and mathematics – must be taught. We believe that it is possible to maintain positive and respectful cultures and learning environments without excluding students from school except in the most severe instances. Three words provide the recipe for expected conduct in JPS: Prevention, Intervention and Progress Monitoring. Utilizing a common sense, age-appropriate, 8-step approach, school environments will thrive. As behavior improves, academic performance improves.

SECTION 2: ADMISSION

To facilitate student enrollment, the Jackson Public School District, has implemented an online enrollment form using the Online Student Registration (OSR) platform supported by Central Access (CA). The online form serves as the district's official registration enrollment document for acquiring entrance to the Jackson Public School District to confirm school attendance as stipulated by the Mississippi Compulsory Attendance Law 37-13-91 and Board Policy JB on school admission.

SCHOOL ADMISSION

—Board Policy JB

The State of Mississippi provides for a uniform system of free and public school for students who meet compulsory school age requirements. It is the intent that every child who is at compulsory school age attend school for a period of instruction sufficient to train the student in educational skills adequate to prepare him / her to take one's place in society and make a contribution as a citizen of this state. All children should be encouraged to continue their education until they have completed high school.

AGE

—Board Policy JBA

All students entering kindergarten must have attained the age of five on or before September 1 of the current year. All students entering first grade must have reached the age of six on or before September 1 of current year. Students twenty-one (21) years of age prior to or on the opening day of school in the school year in which they apply for admission will not be admitted.

Any child who transfers from an out-of-state public or private school in which that state’s law provides for a first grade enrollment date subsequent to September 1, shall be allowed to enroll if—

- (a) The parent, legal guardian or custodian of such child was a legal resident of the state from which the child is transferring;
- (b) The out-of-state school from which the child is transferring is duly accredited by that state’s appropriate accrediting authority;
- (c) Such child was legally enrolled in a public or private school for a minimum of four (4) weeks in the previous state; and
- (d) The superintendent or designee determines that the child was making satisfactory educational progress in the previous state.

BIRTH CERTIFICATE

—Board Policy JBB

Parents / legal guardians must present pupil’s certified birth certificate verifying date of birth for enrollment in the Jackson Public School District.

IMMUNIZATIONS

—Board Policy JBC

Mississippi law provides that “it shall be unlawful for any child to attend school, kindergarten, or similar type facility intended for the instruction of children, either public or private, unless they shall first have been vaccinated against those diseases specified by the State Health Office.” The Board of Trustees of the Jackson Public School District has the power, authority, and duty to require those vaccinations specified by the State Health Officer as provided by law. Application of immunization requirements will be consistent with state statute.

Students who cannot have vaccinations for medical reasons should have a physician or health department official complete a certificate for that reason.

School principals are required to refuse admittance to any child whose parents or legal guardians do not present a birth certificate and a medical certification of proper immunizations within the allotted time.

BONA FIDE RESIDENCE

—Board Policy JBE

Any new student enrolling or entering the school district will be required to verify his / her residence address as a part of the registration process. Students are not legally enrolled until the verification of residence has been completed.

For school attendance purposes, definition of residence is that the student physically resides full time, weekdays/nights, and weekends, at a place of abode located within the limits of the school district. All students shall register at the school they are assigned to attend. The parent or legal guardian shall provide evidence of the residence and the school district administration shall verify bona fide occupancy.

Students Living with Adults Other Than Parents or Legal Guardians

The non-parent or non-legal guardian claiming district residency must meet the same criteria as that of parents or legal guardians as stated in Section II A-C.

If a child is living with an adult other than parents or legal guardians, in loco parentis, authority will be recognized to establish residency of the minor in situations that include but are not limited to:

- Death or serious illness of the child's parent(s) or legal guardian(s);
- Abandonment of the child;

The district resident must provide the school with an affidavit stating his / her relationship to the student and that the student will be living at his / her abode full-time and provide documentation fully explaining the reason (other than school attendance zone or district preference) for this arrangement. The Board of Trustees, the district, or its designee shall make the necessary factual determination. Whenever appropriate, the person who has assumed responsibility for the care and custody of the child shall be encouraged to obtain legal guardianship of the child.

District Requirements

The requirements as stated in Section II are minimal and the school district reserves the right to require additional documentation and verification at any time. The principal of a school is responsible that only students eligible to attend that school are in fact enrolled and attending. The school district shall maintain a file, which contains the written instrument identifying the type of documents used to verify each student's residency and copies of any relevant guardianship petition or decree.

Transferred Students

The provisions of this policy do not apply to students who reside outside the school district, but who have legally transferred into the school district.

Non-Compliance

Any suspicion of violation of residence requirements will be investigated. Any case which cannot be resolved by the principal will be referred to the superintendent or designee for additional investigation and further action. Students enrolled in a school without proper residence verification and without approved transfer will be withdrawn from the school in which they are illegally enrolled.

DISTRICT-TO-DISTRICT TRANSFERS

—Board Policy JBG

The superintendent is authorized and empowered, subject to concurrence by the board, to approve the transfer of a student from this school district to another school district upon the written request of his / her parent or legal guardian.

The application for district-to-district transfer of a student from another school district will only be considered for approval according to specified criteria as prescribed by the school district on an annual basis.

The district-to-district transfer is then subject to the approval of the Superintendent of Schools and the Board of Trustees. This policy does not apply to a child or legal ward of a fulltime employee of the district who lives outside the district. When the board of the district in which the fulltime employee is a legal resident approves the transfer of the student to this school district, the student will be assigned to the school where the parent or legal guardian is employed. Transportation for such cases shall be provided by the parent or legal guardian of the student.

PUPIL TRANSFER- INSIDE DISTRICT

—Board Policy JBH

A pupil of the Jackson Public School District shall attend the school in the zone of the legal residence of his / her parent or approved legal guardian. Transfer to another school may be approved subject to the following:

- A. Space availability as determined by current building capacity
- B. Enrollment in a special program created by the district (i.e., Magnet Program).
- C. Enrollment in a regular program offering, i.e., language, not offered in the school of legal residence.
- D. Brothers and / or sisters of special education pupils may be enrolled at school to which the special education pupil is assigned.
- E. A pupil in the junior or senior year of school or last year of middle or elementary school whose parents move to another zone may request transfer to present school of attendance but must provide his / her own transportation.
- F. Elementary pupil residing in a subzone choosing to attend the designated neighborhood school.

All in-district transferees are subject to specific criteria as prescribed by school district. In addition, please note that any transfer approved for any reason other than programmatic, transportation must be provided by the parent or legal guardian.

Transfer eligibility may cease if a pupil drops out of the program and may be reassigned to the school of legal residence.

Any full-time employee of the Jackson Public School District who is assigned to duty in a school other than the school of his or her residence zone may request for his or her child to attend the school of employment.

Transportation will be made available for pupils transferred for programmatic reasons. Parents / legal guardians must provide transportation for students who are transferred based on space availability.

ADMISSION OF TRANSFER STUDENTS

—Board Policy JBO

Students moving into the Jackson Public School District from another school system shall be assigned to schools on the basis of their parent's or legal guardian's residence. Admission shall be conditional upon receipt of proper records from the previous school system.

Enrollment of transfer students who have been previously dismissed and / or expelled from other schools may be denied until the superintendent, or his or designee has reviewed the child's cumulative record and determined that the child has participated in successful rehabilitative efforts including but not limited to progress in an alternative school or similar program.

RIGHTS OF CUSTODIAL AND NON-CUSTODIAL PARENTS

—Board Policy JBPA

[The district] presumes that the person who enrolls a student in the school has physical and legal custody of the student or is the legal guardian. If there is a dispute between the parents and both parents claim to have legal custody, enrollment records will be examined. The parent who enrolled the child is considered by the school district to have legal custody until a legal document describing the custodial arrangement is provided to the school.

Parents or guardians have the right to request and receive the information contained in the school records concerning their minor child, and parents with legal custody have the right to forbid the disclosure of such information to others absent specific authority otherwise. This board, unless informed otherwise, assumes there are no restrictions regarding the non-custodial parent's right to be kept informed of the student's school progress and activities. If restrictions are made, the parent with legal custody must submit a certified copy of the court order that curtails such rights and describes the rights restricted. Unless there is a legal document that specifies otherwise, both natural parents have the right:

1. To view the child's school records;
2. To receive school progress reports;
3. To visit the child briefly at school for lunch or classroom observations; and,
4. To participate in parent and teacher conferences together or separately.

Unless legal documentation provides otherwise, both parents can see the child at school. However, only a parent with legal and / or physical custody has the right to remove the child from school property. If a non-custodial parent asks to take the child from school, the principal or designee will adhere to the following procedure:

1. Explain that the school staff is responsible for the child's welfare while at school.
2. In plain view of the non-custodial parent, telephone the custodial parent and explain the request. If the custodial parent agrees, then comply with the request.
3. If the custodial parent objects, explain to the non-custodial parents that his / her rights do not include removing the child from school property. Unless legal documentation provides otherwise, confirm that the school will allow brief visits for lunch or classroom observation and describe the conditions so that both parents hear the information. Emphasize that the child will not leave school property.
4. Escort the child to the office. Do not send the parent to the classroom. Explain to the child how the visit is to proceed. Emphasize that you (or a school security official) will return the child to class when the visit is finished.
5. Provide a place for the visit that can be observed by office staff. Escort the child back to class after the visit.
6. Maintain a file of such visits and have the non-custodial parent sign in and sign out so there is an official record of each visit.

STUDENT WITHDRAWAL FROM SCHOOL

—Board Policy JBP

An official withdrawal request from school shall be made to the head of school or designee by the parents who enrolled the student. The principal or his designee shall verify the request for withdrawal with the parents or legal guardians.

ENGLISH LEARNERS

—Board Policy IKD

Title III, Part A of the *Every Student Succeeds Act*

The Jackson Public District will provide English Learners with a program of language instruction to develop proficiency in English to those students who chose to participate. Student participation in any language instruction program or instruction in English as a second language is voluntary and requires written parental acceptance or refusal. The district will provide the guidelines for the implementation of all aspects of English learner instructional programs in K-12. All classroom teachers, administrators, and support staff are expected to follow this plan while planning, delivering and assessing instruction for English learners and providing opportunities for their parents or guardians.

An **English Learner (EL)** is a student—

- who is aged 3-21;
- who is enrolled or preparing to enroll in an elementary or secondary school;
- who was not born in the United States OR whose native language is a language other than English; and
- where difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the individual—
 - o the ability in meeting the State’s proficient level of achievement on State assessments described in section 1111(b)(3)
 - o the ability to successfully achieve in classrooms where the language of instruction is English; and
 - o the opportunity to participate fully in society.

An **Immigrant** student—

- is ages 3 through 21;
- was not born in any state or U.S. territory; and
- has not been attending one or more schools in any one or more states for more than three full academic years.

HOMELESS CHILDREN AND YOUTH

—Board Policy JCR

Title IX, Part A of the *Every Student Succeeds Act*

The Jackson Public School District is dedicated to ensuring each child who is homeless has equal access to the same free, appropriate public education available to other students. This commitment includes services to preschool students and unaccompanied youth who are homeless.

The term homeless children and youth—

- (A) means individuals who lack a fixed, regular, and adequate nighttime residence (within the meaning of section 103(a)(1)); and
- (B) includes —
 - (i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement;
 - (ii) children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings (within the meaning of section 103(a)(2)(C));
 - (iii) children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
 - (iv) migratory children (as such term is defined in section 1309 of the Elementary and Secondary Education Act of 1965) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii).

Requirements

All school districts are required to maintain compliance with the McKinney-Vento Act which provides specific rights for homeless students. Every school district must designate a McKinney-Vento Liaison to assist in identifying, supporting, and ensuring the rights of homeless students and families. These rights include waiving certain requirements, such as proof of residency, when students are enrolling and allowing categorical eligibility for certain services, such as free lunch. The Act also states—

- Students who are homeless may attend their school of origin or the school where they are temporarily residing.
- Parents or guardians of homeless students must be informed of educational and related opportunities.
- Students who are homeless may enroll without school, medical, or similar records.
- Students who are homeless and their families receive referrals to health, dental, mental health, substance abuse, housing, and other needed services.
- Students who are homeless have a right to transportation to school.
- Students must be provided a statement explaining why they are denied any service or enrollment.
- Students must be enrolled in school and receive services, such as transportation, while disputes are being settled.
- Students are automatically eligible for Title I services.
- School districts must reserve a portion of Title IA funds to serve homeless students.
- School districts must review and revise policies that serve as barriers to homeless students.
- Schools must post information in the community regarding the rights of homeless students and unaccompanied youth in schools and other places where homeless families may frequent and written in a language they can understand.
- School districts must identify a McKinney-Vento Liaison to assist students and their families.

The McKinney-Vento Homeless Assistance Act (Act) acknowledges that disputes may arise between the district and the parent or guardian of a homeless child or youth, or unaccompanied youth, when the district seeks to place him or her in a school other than the school of origin or the one requested by the parent, guardian, or unaccompanied youth. Guidance regarding the definition of homeless, the responsibilities of the LEA in serving homeless children and youth, school selection, eligibility and enrollment is provided in the Act.

The following procedures are specified in the Act—

- a. Enrollment: Immediately enroll the homeless child or youth in the school preferred by the parent, guardian or unaccompanied youth until the dispute is settled and all available appeals have been exhausted. The statutory definition of “enroll” includes attending classes and participating fully in school activities.
- b. Written explanation: Written explanations provided by the LEA shall be in a manner and form understandable to the parent, guardian, or unaccompanied youth of any decisions related to school selection, eligibility or enrollment made by the school or LEA, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions.
- c. Parent/Guardian/Unaccompanied Youth Rights: It is the responsibility of the district to inform the parent or guardian, or unaccompanied youth of the McKinney-Vento rights and the dispute resolution process. While the dispute is being resolved, the child or children in question must be enrolled in school and receive all services for which they are eligible, including transportation services. If the dispute is concerning the school of “best interest,” the child must be enrolled in the school preferred by the parent/guardian or unaccompanied youth.

MIGRANT EDUCATION PROGRAM

—Title I, Part C of the *Every Student Succeeds Act*

The Jackson Public School District supports high quality education programs for migratory children by ensuring that children of migrant workers have access to and benefit from the same free, appropriate public education, provided to other children. Migratory children are provided with appropriate education services, including supportive services, that address their special needs so that they receive full and appropriate opportunities to meet the same challenging state academic content and student academic achievement standards that all children are expected to meet.

A **migratory** child is a child—

- who is ages 3 through 21; or
- whose parent, spouse, or guardian is, a migratory agricultural worker or migratory fisher, and who, in the preceding 36 months, has moved from one school district to another, to obtain or accompany such parent, spouse, or guardian, in order to obtain temporary or seasonal employment in agricultural or fishing work as a principle means of livelihood.

The goal of the Migrant Education Program is to ensure that all migrant students reach challenging academic standards and graduate with a high school diploma (or complete a GED) that prepares them for responsible citizenship, further learning, and productive employment.

NEGLECTED, DELINQUENT, OR AT-RISK CHILDREN AND YOUTH

—Title I, Part D of the *Every Student Succeeds Act*

The Jackson Public School District aims to improve educational programs and services for neglected, delinquent, or at-risk children and youth.

The term ‘neglected,’ when used with respect to a child, youth, or student, means an individual who has been committed to an institution (other than a foster home) or voluntarily placed under applicable State law due to abandonment, neglect, or death of his or her parents or guardians.

The term ‘delinquent,’ when used with respect to a child, youth, or student means an individual who resides in a public or private residential facility other than a foster home that is operated for the care of children and youth who have been adjudicated delinquent or in need of supervision.

The term ‘at-risk,’ when used with respect to a child, youth, or student, means a school-aged individual who is at-risk of academic failure, has a drug or alcohol problem, is pregnant or is a parent, has come into contact with the juvenile justice system in the past, is at least 1 year behind the expected grade level for the age of the individual, has limited English proficiency, is a gang member, has dropped out of school in the past, or has a high absenteeism rate at school.

The Jackson Public School District’s goals are to—

1. Improve educational services for children and youth in local, tribal, and state institutions for neglected and delinquent children and youth to provide an opportunity to meet the Mississippi College and Career Readiness Standards;
2. Provide such children and youth with the services needed to make a successful transition from institutionalization for further schools or employment; and
3. Prevent at-risk youth from dropping out of school and provide dropouts and children and youth returning from correctional facilities or institutions with a support system to ensure their continued education and family and community involvement.

REPORTING CHILD ABUSE OR NEGLECT

—Board Policy JD

Any person who has reasonable cause to suspect that child abuse is occurring shall report such information to the Department of Human Services. The information may be based on physical and behavioral indicators as well as other sources of knowledge. The report and identity of the party and reporter are confidential except when the court in which the testimony is filed, in its discretion, determines the testimony of the person reporting to be material to a judicial proceeding.

Child abuse should be suspected when a child shows such physical signs as bruises, scars or burns, has injuries which might have resulted from being beaten, or shows other indicators of cruel and abusive treatment.

Child neglect exists when a child is discovered to be in any one or combination of these situations—

1. abandoned;
2. poorly clothed, malnourished or ill-fed;
3. ill without medical attention;
4. overworked or otherwise exploited; and
5. lacking love, care, guidance, and protection.

Any attorney, physician, dentist, intern, resident, nurse, psychologist, social worker, child care giver, minister, law enforcement officer, school attendance officer, public school district employee, nonpublic school employee, or any other person participating in the making of a required report pursuant to Section 43-21-353 or participating in the judicial proceeding resulting therefrom shall be presumed to be acting in good faith. Any person or institution reporting in good faith shall be immune from any liability, civil or criminal, that might otherwise be incurred or imposed.

ANNUAL NOTIFICATION OF RIGHTS UNDER FERPA

— Board Policy JCFA

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

The Family Educational Rights and Privacy Act gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students." Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.

Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.

Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions:

- School officials with legitimate educational interest;
- Other schools to which a student is transferring;
- Specified officials for audit or evaluation purposes;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for or on behalf of the school;
- Accrediting organizations;
- To comply with a judicial order or lawfully issued subpoena;
- Appropriate officials in cases of health and safety emergencies; and
- State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA.

The Jackson Public School District means of notification of rights under FERPA is the annual publication, *Student Handbook: Rights, Responsibilities, and Code of Conduct*.

STUDENT RECORDS

—Board Policy JCE

The school district desires to comply with the requirements of the Family Educational Rights and Privacy Act (FERPA) which guarantees to parents and students the right to access education records and imposes limits upon the release of education records to others. Educational records will be maintained for each student. Access to these records will be permitted only to the parent, legal guardian, authorized school personnel and other persons or organizations as permitted under FERPA for educational purposes. Access by other persons will be granted only through written permission from the parent or guardian or in response to a lawfully issued subpoena. A record of each time a person accesses a student's educational record will also be maintained in the permanent records of the student. Parents have a right to inspect the education records of their children, within a reasonable period of time after a request is made, but not longer than forty-five (45) days shall elapse between the request and the inspection. A parent will be provided an opportunity to challenge the contents of the education records in a conference with the principal. If no resolution results from the conference, a parent may request a hearing before an administrative employee and prepare a written statement for inclusion in the record of their children.

TRANSCRIPTS

—Board Policy JCE

Upon request the student shall be granted two transcripts which will be sent to any designated college, training agency, employment office, or the student without charge. When more than two are requested, additional copies shall be furnished upon payment of a transcript fee per copy. Transcript fees shall be paid at the time requests are made to the Office of Records. Upon payment of the transcript fee, a receipt shall be issued to the student. When transcripts are required by colleges to supplement partial listings of high school credits previously filed with the college by the school office, no charge shall be made to the student for the final copy. The policy governing the fee for transcripts applies to requests from students to furnish transcripts to sources classified as colleges, universities and/ or other institutions of higher learning, military services, or prospective employers who request high school records. School initiated transcripts to other sources will be authorized by the high school principal on the basis of the purposes to be served by the school and without cost to the student. No requests for a transcript will be granted unless given prior approval by the person named in the request.

CONFIDENTIALITY

Confidentiality is necessary to create an atmosphere of trust, understanding, and respect between the students and the school faculty. School staff shall exercise professional judgment on confidentiality. To preserve an atmosphere of learning and in the best interest of the students, the source of information obtained will be labeled confidential.

In order to observe the student's and the counselor's rights, when the student comes to the counselor for help, the counselor will help the student understand that information cannot always be kept confidential; in some cases, it will be referred to the appropriate individual or agency. These cases will include those that endanger the welfare of the student or others. This information may be subject to disclosure in a court of law. In the event a student is referred to a community agency outside the school system, that agency must maintain the standard of confidentiality required by law. The referring party must also preserve the highest level of confidentiality.

SECTION 3: ATTENDANCE

—Board Policy JBL

All Mississippi students are afforded the opportunity to attend school according to the Mississippi Compulsory School Attendance Law §37-13-91 of the Mississippi Code 1972 Annotated. The law governs compulsory school attendance. It requires a parent, legal guardian or custodian who has legal control or charge of a child age six (6) to seventeen (17) to enroll him or her in an education program (i.e., public, private or home school). Student enrollment must occur except under the limited circumstances specified in subsection three (3) of §37-13-91 which includes, but are not limited to, sending the child to a state-approved, nonpublic, or educating the child at home in an organized educational program. July 1, 2003, the law was amended to include the following: a child, five (5) years of age, who enrolls in public kindergarten, will have to abide by the same guidelines as outlined in the §37-13-91.

School attendance plays a major part in student achievement. Every absence, excused or unexcused, (including suspensions), is a learning opportunity lost and can have significant impacts on a student's success in school and life. A student who misses 10% or more of their school days, which can mean just two days a month, for any reason, is considered chronically absent. Chronically absent students are more likely to fall behind academically and less likely to graduate from high school. Addressing chronic absenteeism and developing good attendance habits is a solvable problem for which we all share responsibility.

Parents / guardians must ensure that all school-age children in their care are in school on time daily. Additionally, school personnel must communicate any attendance problems or concerns to parents / guardians in a timely manner. Parents are required to send a signed written note with the reason for absence. If the absence is lawful, the student will receive missed classwork and assignments. Documentation may be requested for absences of three or more consecutive days.

Written Excuse

The student must present a signed written excuse from a parent, guardian, or doctor on the day the student returns to school unless permission to be absent was granted by school officials before the absence occurred.

The written excuse should contain—

1. The date written
2. Full name of the student
3. The date(s) the student was absent
4. The cause of the absence
5. The signature of the parent, guardian, custodian, or doctor
6. The phone number where parent, guardian, or custodian can be reached

The principal or designee has the authority to determine the absence type based on the sufficiency and validity of information received.

Students Reporting Late to School

It is imperative for students to be on time at the beginning of the school day. The official school attendance documentation is recorded during this time. Schools are required to admit students to school regardless of the time they arrive. (However, students who arrive late to school must report first to the appropriate administrative office to obtain a late pass before being admitted to any classroom or other area of the school). This pass must be shown to all of the student's teachers as the student reports to each class during the day, as well as to teachers of any missed classes during the next school day. If the student does not obtain and show the pass to all teachers, the tardy will be considered unexcused.

Additionally, for the tardiness to be excused, students are required to bring a note from the parent / guardian explaining the reason for the tardiness.

Excused Absence

An excused absence, also known as lawful absence, is absence from school, including absence for any portion of the day pursuant to MS Code §37- 13-91, (4) (a) through (4) (i). Each of the following shall constitute a valid excuse for temporary nonattendance of a compulsory-school-age child enrolled in a public school, provided satisfactory evidence of the excuse is provided to the superintendent of the school district, or his designee—

- a. An absence is excused when the absence results from illness or injury which prevents the compulsory-school-age child from being physically able to attend school.
- b. An absence is excused when isolation of a compulsory-school-age child is ordered by the county health officer, by the State Board of Health or appropriate school official.
- c. An absence is excused when it results from the death or serious illness of a member of the immediate family of a compulsory-school-age child. The immediate family members of a compulsory-school-age child shall include children, spouse, grandparents, parents, brothers and sisters, including stepbrothers and stepsisters.
- d. An absence is excused when it results from a medical or dental appointment of a compulsory-school-age child. Chapter 30: Dropout Prevention.
- e. An absence is excused when it results from the attendance of a compulsory-school-age child at the proceedings of a court or an administrative tribunal if the child is a party to the action or under subpoena as a witness.
- f. An absence may be excused if the religion, to which the compulsory-school-age child or the child's parents adheres, requires or suggests the observance of a religious event. The approval of the absence is within the discretion of the superintendent of the school district, or his designee, but approval should be granted unless the religion's observance is of such duration as to interfere with the education of the child.
- g. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that the purpose of the absence is to take advantage of a valid educational opportunity such as travel, including vacations or other family travel. Approval of the absence must be gained from the superintendent of the school district, or his designee, before the absence, but the approval shall not be unreasonably withheld.
- h. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that conditions are sufficient to warrant the compulsory-school-age child's nonattendance. However, no absences shall be excused by the school district superintendent, or his designee, when any student suspensions or expulsions circumvent the intent and spirit of the compulsory attendance law.

Truancy

Truancy occurs when a student ~~that~~ has accumulated five (5) or more unlawful absences in a school year, excluding suspension and expulsion days.

Unexcused Absence

An unexcused absence, also known as an unlawful absence, is an absence during a school day by a compulsory-school-age child, which the absence is not due to a valid excuse for temporary nonattendance, pursuant to MS Code §37-13-91 (4).

PERMISSION TO LEAVE SCHOOL BEFORE CLOSING HOUR

—Board Policy JBM

Students shall not be permitted to leave school before the regular closing hour except for extraordinary reasons and under such circumstances as set forth in the following section. Upon request from a licensed physician or dentist, signed by the parent, a student may be dismissed from school for a medical or dental appointment for the time required by the specified appointment, and such absence shall be considered excused. All requests to leave the building while school is in session must be cleared through the principal's office. Leaving school without permission constitutes truancy. Senior high school students need not obtain the principal's permission to leave the school grounds for participation in established work / study programs or to attend the Career Development Center.

STUDENT DISMISSAL PRECAUTIONS

—Board Policy JDG

Section I: DISMISSAL OF SCHOOL

No students shall be dismissed before the regular hour except with the knowledge and approval of the superintendent's office. Schools will be kept open during inclement weather unless closed by the superintendent. However, if conditions warrant, operation of the school buses may be limited or suspended by the superintendent in order to comply with reasonable standards of safety. In cases of extreme emergency, which may affect the safety and health of the students, the principal shall use his best judgment in determining what action to take.

Section II: DISMISSAL OF INDIVIDUAL STUDENTS

No student shall be excused from school prior to the end of the school day, or into any person's custody, without the direct approval and knowledge of the building principal. The building principal shall not excuse a student before the end of the school day without a request for the early dismissal by the student's parent or legal guardian. Additional precautions shall be taken by the school administration appropriate to the age of students, and as needs arise.

Section III: ERRANDS BY STUDENTS

No student shall be sent from school grounds during school hours to perform an errand or act as a messenger for the school, its related activities, or a faculty member. No exceptions shall be made.

SECTION 4: HEALTH AND WELLNESS

SITE-BASED MANAGEMENT

—Board Policy CHA

The primary goal of site-based management is to improve student academic performance by vesting greater decision-making authority in a school's parents, teachers, principal, and surrounding community. The purpose of this policy is to clarify and strengthen the district's policies on site-based management.

Effective July 1, 2006, the Board of Trustees shall also establish a local school health council for each school which shall ensure that local community values are reflected in the local school's wellness plan to address school health. Such councils shall be established no later than November 1, 2006.

WELLNESS POLICY AND PROCEDURES

—Board Policy CHAA

The Board of Trustees is committed to providing a school environment that enhances learning and development of lifelong wellness practices. The link among nutrition, physical activity, and learning is well documented. Healthy eating and activity patterns are essential for students to achieve their full academic potential, full physical and mental growth, lifelong health, and well-being.

It is necessary and important to establish nutrition standards for all foods available at school during the school day. The board of trustees is committed to promoting policies that will make healthy food choices available to promote lifelong healthy eating habits while ensuring that all necessary nutrients are provided. A variety of choices shall be given that includes fresh leafy vegetables, fruit, 100% fruit juices, nuts, fresh salads, water, trail mix, beef jerky, reduced-fat dairy products, whole grains and other foods that contain essential vitamins and minerals. One of the board's objectives is to educate students and parents about food consumption behavior to influence healthier choices. The board is committed to offer solutions to provide the healthiest choices available on school campuses during the school day, at afterschool programs, and extracurricular activities to meet its wellness goals.

The Jackson Public School District follows all current and future requirements and recommendations of the USDA National School Lunch Program Meal Patterns and Nutrient Standards. For additional information about the components of this policy, please visit the district's website.

PHYSICAL EDUCATION AND COMPREHENSIVE HEALTH EDUCATION

—Chapter 38, Rule 38.12
Mississippi Department of Education

The Jackson Public School District understands the relationship between student health and academic achievement. Research supports the relationship between quality physical education programs and the development of social skills, academic performance, increased attendance, and a reduction in discipline referrals. The Physical Education and Comprehensive Education programs in the district are provided in accordance with the Mississippi Healthy Students Act and the Mississippi Public School Accountability Standards, the State Board of Education has adopted the following rules and regulations to support the implementation of quality activity based and health education programs.

ABSTINENCE-PLUS SEX EDUCATION

—Board Policy ICC

The Board of Trustees of the Jackson Public School District believes that every student has the right to accurate information concerning the prevention of pregnancy and sexually transmitted infections. The board is committed to fostering community partnerships that educate both students and parents about this important topic. The Jackson Public School District seeks to affirm its commitment to creating healthy and responsible teens in the district by fully complying with the Mississippi Code, Annotated, Section 37-13-171 (Amended 2011) and by—

- adopting educational programs designed to help students and parents take action to reduce rates of teen births and sexually transmitted infections and integrating such programs into already established classes, and
- establishing principles, guidelines, and strategies for implementing effective sex education programs, referred to in state law as “Abstinence-Plus Education” programs. The district shall utilize a comprehensive, age-appropriate, evidenced-based, medically accurate, and free of fear and shame-based strategies Abstinence-Plus curriculum from the list of curricula approved by the Mississippi Department of Education (MDE).

COMMUNICABLE AND CHRONIC INFECTIOUS DISEASES

—Board Policy JDE

Communicable Diseases

A student with an infectious disease (chicken pox, measles, etc.) shall remain at home until the disease is no longer a threat to that student or others. Principals should report to the health department all cases of a communicable disease, which might pose a threat to the health of the school or community. When concerned with a unique individual case, the welfare of all students and employees should be the prime consideration. Each individual case will be resolved in consultation with the Mississippi State Department of Health.

Chronic Infectious Diseases

The district recognizes that the Human Immunodeficiency Virus (HIV) is not transmitted through casual contact, and therefore, the child’s HIV status is no reason in itself to exclude from school or otherwise segregate the child while in school. The district also recognizes the need to maintain the confidentiality and privacy of infected students and treats with strict confidence a child’s HIV status.

Decisions regarding a student infected with HIV or other infectious disease shall be made on an individual basis with regard to the behavior, physical condition, neurological development, and the expected type of interaction with others in the educational setting. When making such a decision, the child’s doctor, parent or guardian, principal, and other central office personnel should be included in the decision process. In each case, the risks and benefits to both the infected student and to others must be weighed.

As conditions change, cases may be reevaluated. Should it be determined, based on medical information, that attendance at school poses a risk or threat of transmission to others, an appropriate alternative education program may be established for that student.

The district shall observe the confidentiality and privacy of students with infectious diseases, and in doing so, shall involve only those personnel who have a need to know about the student's medical condition. Those building level personnel typically include only the principal, nurse, teacher, and teacher assistant. The child's physician may also be consulted when determining who needs to know the child's medical condition.

Each building principal shall maintain an adequate supply of items needed to clean up spills.

INFECTION CONTROL

—Centers for Disease Control and Prevention (CDC) The district shall follow the most current guidelines established by the Centers for Disease Control and Prevention (CDC) and the U.S. Occupational Safety and Health Administration (OSHA) for preventing transmission of infectious diseases at all times and in all settings. The precautions include—

- (a) Wash hands with soap and water after contact with bodily fluids as soon as possible.
- (b) Clean all spills of blood and other bodily fluids immediately with disinfectant (1- part bleach to 9 parts water).
- (c) Wear gloves when cleaning up blood spills and when in contact with bodily fluids. Gloves shall be worn when it is reasonably anticipated that the employee may have had contact with blood, mucous membranes, non-in-tact skin, and other potentially infectious materials.
- (d) Alert the district safety officer if a situation occurs that presents a reasonable risk of transmitting an infection.
- (e) Counsel any person exposed to an infectious agent to seek appropriate medical evaluation. Alert parent/ guardian if the person exposed is a student.
- (f) The infected student will have access to voluntary, confidential, age-appropriate counseling.

Schools will keep supplies needed for meeting these infection control guidelines reasonably accessible for students and to employees.

Up-to-date Student Health Records should be completed and returned on all students annually by parents / guardians.

School district personnel will adhere to district policies and procedures regarding giving medicine at school.

Many illnesses can be stopped before they spread by reminding everyone to practice frequent hand washing, blowing noses into tissues, covering mouths when coughing or sneezing, and asking other parents about sick symptoms in their kids before arranging play dates and carpools. Even the best hygiene practices cannot avoid the spread of all illnesses at school. Please refer to the following guidelines when trying to determine if your child should stay home or go to school when ill.

Cough

Cough alone may not prevent your child from attending school unless it is interfering with a child's sleep or ability to participate in school activities. If the cough is productive and has phlegm or is associated with fever or trouble breathing, keep your child home from school and arrange to have the child seen by his or her physician immediately.

Fever

Fever is a symptom of illness and not an actual diagnosis. Fever usually indicates that the body is battling an infection. A child with a fever of 100.4 degrees Fahrenheit or greater needs to stay home from school until the fever is gone. If your child appears sick with fever, call your doctor to have your child evaluated. Please be sure your child is fever-free for 24 hours before allowing him / her to return to school.

Flu

The flu is a highly contagious infection of the respiratory tract that can cause very serious illness. It can lead to hospitalization and may even be life threatening for some children and adults. Flu symptoms can include fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills, feeling tired, and sometimes vomiting and diarrhea. The flu comes on abruptly, not gradually like a cold. The district encourages parents to keep children at home if they have flu symptoms until they are no longer contagious.

Head Lice

If a student is found to have lice (live bugs) at school, parents will be notified, and the student will be sent home that day. The student can return to school the next day once an FDA approved over the counter treatment or prescription product for lice is used, and proof of treatment (empty bottle or receipt) must be submitted. Parents should consult with their healthcare provider or a pharmacist to make sure treatment is appropriate for the student and for treatment recommendations. MS Code 41-79-21 states that any student in any public elementary or secondary school having head lice on more than three occurrences during the school year must be reported to the county health department for help treating lice. The student will not be allowed to return to school until he / she has been to the Hinds County Health Department and has no nits. If lice (live bugs) have been found on three consecutive occasions and the student has already been seen by the Hinds County Health Department and the student is still found to have lice (live bugs) at school, the student will be required to see his or her primary care physician for treatment options. Parents must provide the school with a letter from the physician in order to return to school. If the problem continues to be recurrent, the school principal or administrator shall determine whether or not a DHS referral will be warranted based on the number of days of school missed. Note: Parents or guardians are reminded that a successful treatment regimen for lice includes the use of over the counter or prescription shampoo as directed, removal of all nits (gray/white eggs attached to the hair shaft), and treatment / cleaning of the home (i.e., laundering bed linens, vacuuming carpet and couches, containing stuffed animals).

Molluscum Contagiosum

Molluscum Contagiosum is a common skin disease that is caused by a virus. The disease is generally mild and should not be a reason for concern or worry. People with this skin disease can cause the bumps to spread to different parts of their body by touching different parts of their body by touching or scratching a bump and then touching another part of the body. The virus can also be spread from person to person. The bump(s) must be covered with clothing or a bandage while the child is at school to prevent transmission to others.

Rashes

Many rashes will resolve spontaneously and are not reason alone to keep a child home from school. Any rash associated with symptoms such as trouble breathing, swallowing, fever, or ill appearance should be evaluated by your child's physician immediately. Rashes that are itchy or scaly may be contagious and should be evaluated by your child's physician before sending a child back to school.

Red, Swollen, Draining Eyes (Conjunctivitis)

If your child wakes up with one or both eyes stuck together with drainage or crust, if the eye(s) become red or swollen, if they are painful and / or itchy, then your child should remain home and be evaluated by a physician as soon as possible. This could be contagious. If your child is sent home with a red eye(s) or discharge, your child may return to school 24 hours after treatment is started or when there is no drainage from the eye(s).

Ringworm

Ringworm is caused by a fungus that grows on the skin, not by a worm. Ringworm is characterized by a round, pink/red rash with a raised, rough, scaly border. As the rash grows outward, getting larger as the infection spreads, the center tends to clear. Left untreated, it is usually somewhat itchy. Students with ringworm should not have to miss school. They should, however, receive treatment for the condition either topically with an over the counter medication or orally with prescription medication. Skin to skin contact with others should be avoided to prevent the spread of infection. In order to stay at school, students with ringworm(s) must keep the infected area covered with a bandage or dressing while at school. Ringworm of the body can be spread on towels, clothing, or sports equipment. Ringworm of the scalp can spread from child to child when children share hats, combs, or brushes. Personal hygiene is important in preventing the spread of ringworm. Note: Ringworm on the scalp or nails requires oral medication, which must be prescribed by a medical professional.

Scabies

Scabies is an infestation of the skin by the human itch mite. The most common symptoms of scabies are intense itching and a pimple-like rash. The mite is spread by direct, prolonged, skin-to-skin contact with a person who has scabies. Scabies is treated with medication, which is prescribed by a doctor. The student may return to school after 24 hours of treatment.

Sore Throat

Children can attend school with mild sore throats if no other symptoms are occurring. A doctor should evaluate any child with a sore throat associated with fever, vomiting, abdominal pain, or difficulty swallowing before returning to school. A child with a diagnosis of strep throat needs to stay out of school until on antibiotics and fever free without the use of fever-reducing medications for 24 hours.

Staph (Staphylococcus)

Staph is a common germ that lives on the skin and in nasal passages that can cause skin infections. Staph is treated with antibiotics prescribed by a doctor. The affected area should be covered while at school, unless the infection is around the nose or the mouth. If the infection is around the nose or mouth, the student may not return to school until there is no drainage, and he or she has received antibiotic treatment for at least 24 hours.

Vomiting or Diarrhea

A child with vomiting, with or without diarrhea, needs to stay home from school. Your child can return to school when the symptoms have stopped, and the child can tolerate a regular diet. Please keep your child home until he / she has been without vomiting or diarrhea (less than 3 episodes) for 24 hours. Once an episode of vomiting or diarrhea has occurred at school, the student will be sent home and may return to school after the above criteria are met.

SELF-ADMINISTRATION OF ASTHMA AND / OR ANAPHYLAXIS MEDICATION BY STUDENTS

—Board Policy JDAA

The Board of Trustees permits the possession and self-administration of prescription asthma and / or anaphylaxis medications by students provided that the prescription asthma and / or anaphylaxis medication has been prescribed for that student as indicated by the prescription label on the medication; the self-administration is done in compliance with the prescription or written instructions from the student's physician or other licensed health care provider; and parents or guardians have given to the principal written authorization, signed by the parent or guardian, for self-administration of asthma and / or anaphylaxis medication while on school property or at a school-related event or activity. Parents must also provide a written statement from the student's health care practitioner that indicates that the student has asthma and / or anaphylaxis and has been instructed in the self-administration of asthma medications. The statement from the health care practitioner shall also contain the name and purpose of the medication, the prescribed dosage, the time or times the medication is to be regularly administered and under what additional special circumstances the medication must be administered, and the length of time for which the medication is prescribed. These two statements must be kept on file in the principal's office.

The school district shall incur no liability as a result of any injury sustained by the student from the self-administration of asthma and / or anaphylaxis medications. The parent or guardian of the student who self-administers asthma and / or anaphylaxis medication shall sign a statement acknowledging that the school incurs no liability and that the parent or guardian indemnifies and holds harmless the school and its employees against any claims relating to the self-administration of asthma medication, unless in cases of wanton or willful misconduct. The permission for self-administration of medication shall be effective only for the school year in which it is granted. Parents must annually renew the permission form for self-administration with the same requirements that are listed above.

Once the parent has complied with the requirements as noted above, the student may possess and use asthma and / or anaphylaxis medication at school, at a school-sponsored activity under the supervision of school personnel, or before and after normal school activities while on school properties including school-sponsored childcare or after school programs. Students should not share his or her medication with other students.

ADMINISTRATION OF MEDICATION TO STUDENTS

—Board Policy JDAB

This policy addresses the administration of medications to students. The administration of emergency health care and first aid to students is set forth in Policy JDL entitled First Aid for Emergencies. District personnel will only administer prescription medication to students during school hours or school-sponsored activities and only upon receipt of a written parental request and a valid medical authorization. PERSISTENTLY DANGEROUS SCHOOLS OR THE UNSAFE SCHOOL OPTION

—Board Policy JCFAB

The Every Student Succeeds Act (ESSA) requires each state that receives Title I funds to establish and implement a statewide policy which provides that a student who attends a persistently dangerous elementary or secondary school as determined by the state in consultation with a representative sample of local school districts, or who becomes a victim of a violent criminal offense, as determined by state law, while in school or on the school grounds, will be allowed to attend a safe public elementary or secondary school within the Jackson Public School District, if the parent so desires. A persistently dangerous school is defined by the State Board of Education as follows—

- (a) A “persistently dangerous school” is a public school other than a charter school in which the conditions during the past two school years continually exposed its students to injury from violent criminal offenses, and it is—
- i. an elementary, middle or secondary public school in which a total of 20 or more violent criminal offenses were committed per 1000 students (2.0 or more per 100 students) in two consecutive school years; or
 - ii. an elementary, middle or secondary public, an alternative school in which a total of 75 or more violent criminal offenses were committed per 1000 (7.5 or more 100 students) in two consecutive school years; and

(b) “Violent criminal offenses” are the following crimes reported in the Mississippi Student Information System—

Homicide as defined in Section 97-3-19, 97-3-27, 97-3-29, 97-3-31, 97-3-35, 97-3-37, and 97-3-47 of the Mississippi Code Annotated 1972, as amended,

Whenever the Mississippi Department of Education (MDE) has information that a school meets the criteria described above, MDE shall provide the local board of education the opportunity to report on conditions in the school. After consideration of that report and consultation with a representative sample of local educational agencies, the MDE shall determine whether the school is a persistently dangerous school. Once a school has been designated a persistently dangerous school, it retains that designation for at least one (1) school year.

In the event a school in this school district is identified by the MDE as persistently dangerous, the district will provide notification to parents of all students attending the school identified as persistently dangerous of this determination. The notice will—

However, students are responsible for whatever is contained in desks and lockers issued to them by the school. School authorities may conduct periodic general inspections at any time for any reason related to school administration. Inspection of individual lockers or desks may occur when there is a reasonable basis to do so, and in those cases, the student or a third party shall be present.

The school retains authority to inspect student automobiles used as transportation to school on school property. Search of Students

A student's person and / or personal effects may be searched whenever a school authority, other than a sworn law enforcement officer, has reasonable suspicion to believe that the student is in possession of illegal or unauthorized materials. If a pat-down search of a student's person is conducted, it will be conducted in private by a school official of the same sex with an adult witness present. It will be an extremely rare situation that requires a more intrusive search of a student's person than a pat-down. Only if extreme emergency conditions exist, and only upon prior approval by the district Counsel, shall a more intrusive search be conducted by a school official, other than a sworn law enforcement officer. If such a search is necessary, it will be conducted in private by a school official of the same sex with an adult witness of the same sex present.

INTERROGATIONS

—Board Policy JCN

The personnel of each school, whenever possible, should endeavor to handle its alcohol and drug problems. However, in instances when law enforcement is necessary, it is important that school administrators coordinate actions between police and the schools. An enlightened working relation between school personnel and law enforcement officers can help to facilitate the handling of not only alcohol and drug cases, but also the problem areas of mutual concern. Any time questioning of the student by law enforcement authority is in order, the parent or legal guardian of the student may be called. The principal and counselor or teacher will determine whether the student's parent or legal guardian should be called. At the request of the student, the principal will contact the student's parent or legal guardian before the student is questioned.

When drugs are being sold on school property, immediate action will be taken to cooperate with law officials in the apprehension of the individual or individuals responsible and in the confiscation of drugs. Care must be taken, however, that school personnel does not act in a disciplinary fashion when the only suspicion of involvement is present. The student's school activities should not be interrupted for police interrogation when the issue concerns

activities unrelated to school time, school property, or official school-sponsored functions, if such interrogations can be accomplished, to the satisfaction of the police and school officials, after school hours.

Facts for Children about Bullying

Bullying is being mean to another student over and over again. Bullying often includes:

- Teasing
- Talking about hurting someone
- Spreading rumors
- Leaving students out on purpose
- Attacking someone by hitting them or yelling at them
- Bullying does not always happen in person. Cyberbullying is a type of bullying that happens online or through text messages or emails. It includes posting rumors on sites like Facebook, sharing embarrassing pictures or videos, and making fake profiles or websites.

What to Do If You're Bullied

There are things you can do if you are being bullied:

- Look at the kid bullying you and tell him or her to stop in a calm, clear voice. You can also try to laugh it off. This works best if joking is easy for you. It could catch the kid bullying you off guard.
- If speaking up seems too hard or not safe, walk away and stay away. Don't fight back. Find an adult to stop the bullying on the spot.
- There are things you can do to stay safe in the future, too.
- Talk to an adult you trust. Don't keep your feelings inside. Telling someone can help you feel less alone. They can help you make a plan to stop the bullying.
- Stay away from places where bullying happens.
- Stay near adults and other kids. Most bullying happens when adults aren't around.

If you have a need to report a bullying incident, please use the form located in the form section of the book.

—Board Policy GBFA

The Board of Trustees of the Jackson Public School District recognizes that suicide is a major cause of death among youth and should be taken seriously. It is the policy of this school district that annual in-service training on suicide prevention education will be conducted for all school district employees.

The board establishes this policy in an effort to take positive steps toward reducing student suicide through—

1. **Prevention.** To provide in-service training to all school district employees with information about the recognition of the signs of suicidal behavior; including, but not limited to, early identification and delegation of responsibility for planning and coordination of suicide prevention efforts.

PARENT INVOLVEMENT POLICY

—Board Policy JAB / KKA

The Jackson Public School District believes that effective parent involvement programs must be designed to provide leadership for home and school partnerships and to promote schools' commitment to building level planning and improvement. The Elementary and Secondary Education Act of 1965 (ESEA) amended as the *Every Student Succeeds Act* (ESSA) 2015 establishes the role of the school in involving parents and clarifies the relationship between the local school's role in parental participation and the role of the local educational agency (LEA). Research demonstrates that a positive impact on student success results when schools effectively involve parents. This policy contains three components: (1) policy involvement; (2) shared responsibilities for high student performance; and, (3) building capacity for involvement. It is the policy of the Jackson Public School District to do the following:

1. Provide coordination, technical assistance, training, support and resources to assist schools in planning and implementing effective parent involvement programs through the leadership of the district's Office of Federal Programs;
2. Build the schools' capacity for stronger parent involvement programs through the provision of site-based management;
3. Involve parents in the development/evaluation of school plans and policies through the provision of district-level consultation with the Office of Federal Programs, the Parent Advisory Council, and other district-wide planning committees;
4. Enhance efforts to meet the total needs of families and schools by coordinating services and strategies with existing community agencies, programs and businesses; and
5. Reserve resources required by federal law and provide additional resources needed for effective implementation of all parent involvement components.

The Jackson Public School District promotes family involvement on all levels, including but not limited to:

- Creating a climate that fosters and supports family participation in the schools
- Corroborating the link between parental involvement and student achievement
- Providing opportunities for staff and interested adults to build stronger relationships between home and school

The building administrators, teachers, and support staff shall make efforts to promote an inviting atmosphere for parents to feel accepted and to share in the responsibility for their child's academic progress. The building staff shall also perform the following tasks:

1. Each Title I school must notify parents of its parental involvement policy in an understandable and uniform format and, to the extent practicable, in a language the parents can understand. In addition, Title 1 schools must make their parental involvement policy available to the local community and update it periodically to meet the changing needs of parents and the school;
2. Encourages the participation of parents of students eligible for Title I services in all aspects of their child's education, including the development and implementation of District programs, activities, and procedures designed to carry out the Every Student Succeeds Act (ESSA) parent involvement goals;
3. To support the efforts of parents by providing flexibility in meeting and conference times, purposes and locations;

4. To convene annual meetings to explain school programs, policies and plans;
5. To involve parents in planning and evaluation procedures;
6. To provide timely information regarding meetings, activities, and requests for parent responses;
7. To provide prompt, personal responses to parents' requests and recommendations;
8. To strengthen the effectiveness of parents' ability to work with their children at home by providing training and support;
9. To provide school performance profiles that clearly show parents the schools' progress toward meeting state standards;
10. To provide opportunities for parents to assist in the instructional process at school and at home;
11. To provide regular, timely information for parents about their child's participation and progress in all educational programs;
12. To utilize creative, timely means of communication with parents;
13. To model positive communication with parents and practice methods to resolve conflicts;
14. To provide a comprehensive range of opportunities for parents to become informed and involved;
15. To provide a description and explanation of the curriculum, assessment and expected proficiency requirements;
16. To develop homework practices that foster successful learning experiences for parent and child;
17. To assess the needs of families and design training opportunities that address these needs;
18. To assess the professional development needs of staff members and provide training opportunities designed to strengthen staff involvement with parents;
19. To coordinate services with the school counselor, social services, Head Start, Even Start, and community agencies to address key family issues;
20. To recognize the diversity of family structures, circumstances, and responsibilities, including differences that might hinder parent participation;
21. To develop a school-parent compact designed to outline the role of parent, child and school personnel in the shared responsibility for learning;
22. To work constructively with school level parent-teacher associations (PTAs) and other parent organizations to actively involve parents in their child's school;
23. Under the McKinney-Vento Homeless Assistance Act, schools must identify children and youth in homeless situations and provide appropriate services. Homelessness is one who (A) lacks a fixed, regular and adequate nighttime residence and (B) includes – (i) children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement; (ii) children and youth who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings; (iii) children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and migratory children. Information will be shared about McKinney-Vento services, rights, and definitions when a parent or youth cannot provide proof of residency, guardianship, or other documentation, or when they display other possible indicators of homelessness. Delaying the enrollment of a homeless student violates federal law and may place the student in danger.

24. To the extent practical, both the district and its Title I schools will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children. Activities in this area include providing information and school reports in a format and, to the extent practicable, in a language such parents understand, and scheduling a flexible number of meetings convenient to parents;
25. Conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy in improving the academic quality of Title I schools, including the identification of barriers to greater participation by parents in activities under the policy, and revision of parent involvement policies necessary for more effective parental involvement.

If an outside individual or entity is contracting with the district for the purpose of performing an observation in order to make recommendations of possible changes in the child’s educational programming or IEP, the individual or entity shall submit a report of the observation to the district. The district shall notify the parent upon receipt of the report.

Mass screening for hearing, vision, and speech shall be done in grades determined by the district’s administration and / or the State Department of Education.

SPEECH LANGUAGE SCREENING

—Board Policy IDFA

The purpose of this policy is to ensure that the district complies with all requirements of the Mississippi Speech-Language Therapy Scholarship for Students with Speech-Language Impairments provided in Mississippi House Bill 896, Legislative Session 2013. A parent or legal guardian may provide written notification to the local school district opting out of the mandatory screening provided by the district. The provisions of this section shall not apply to homeschooled students.

DYSLEXIA SCREENING

—Board Policy IDFAB

It is the policy of the Jackson Public School District to comply with all requirements of the dyslexia legislation provided in the Mississippi Code of 1972 Annotated, Section 37-173-15.

VISION AND HEARING SCREENING

—Board Policy JDO

Any student who has not been successful in the regular education program may be screened for vision and hearing as a means of determining whether vision or hearing problems are the cause of the child’s lack of success in the regular program.

GRADE AND SUBJECT CLASSIFICATION

—Board Policy IDD

Section I: Regular Classification

Principals shall be governed by the regulations of the Mississippi Accrediting Commission in accepting students from accredited and non-accredited schools in grade and subject classification. Students applying for admission from non-accredited schools shall be temporarily placed in the grade and subject in which they have been recommended by the non-accredited school. Principals shall allow enough time for examination, observation, and fair appraisal of the scholastic status of such students to determine whether or not proper classification has been made. Following such evaluations, proper placement of students shall be made by the principal.

No student is to be officially enrolled in a Jackson Public School after attending another school until proper records of previous school attendance are provided the principal of the school to which admission is requested. Upon receipt of the school records, the principal will make the proper grade and subject classification of the student. The following grade classification shall be made annually.

1. Elementary School

Students shall be eligible for grade promotion according to the satisfactory completion of prescribed requirements and programs of study at each grade level as outlined and stipulated by the Jackson Public School District.

2. Middle School (6 – 8)

Students shall be eligible for grade promotion according to satisfactory completion of prescribed requirements and programs of study at each grade level as outlined and stipulated by the Jackson Public School District.

3. High School (9 – 12)

Students shall be eligible for grade promotion according to satisfactory completion of prescribed requirements and program of study at each grade level as outlined and stipulated by the Jackson Public School District. See Board Policy JBQ for further details.

Section II: Grade Classification of Students Enrolling for the First Time beyond First Grade

Students enrolling in school beyond [first grade] for the first time who meet the criteria of a compulsory school age pupil shall be granted temporary grade classification according to age appropriateness. The student will undergo a series of approved assessments and observations to determine permanent grade classification. The evaluation process is time-sensitive but must allow the school principal adequate time to assess, examine, and determine the most appropriate academic placement for the pupil.

GRADING SYSTEM

—Board Policy IGA

The basic objective of a grading system is to communicate to parents a periodic evaluation summarizing significant factors of the student’s adjustment in the total education program. The cumulative purpose of the grading system is to supply the parent a composite statement of the educational process in a specified period of time for the student in selected areas of learning.

The grading system is basically a method of communication about the student’s intellectual, social, and emotional development. The grading system is based upon student achievement and performance, bearing in mind that any system incorporates both subjective and objective considerations in student evaluation. The following numerical values shall be used in determining letter grades for students:

Elementary Schools Policy

GRADES 1–5

GRADE ADJUSTMENT AND MINIMUM GRADE

—Board Policy IGAB

The building principal is responsible for the supervision and maintenance of student records at the school level. This responsibility may be delegated by the principal to the guidance counselor. As part of the principal's responsibility or delegated responsibility to the guidance counselor, adjusting a student's grades or credits shall be consistent with the following guidelines and Miss. Code Ann. §37-11-64.

Grading

It is the intent of this Board to have a grading policy that is uniform by school grade designation. The grading policy is not required to be uniform across all grade levels. The grading policy will be adopted by the local school board, published in the student handbook, and disseminated to parents.

It is the intent of the Commission on School Accreditation and the State Board of Education that grading is the responsibility of teachers. Any change of grades, other than a final grade, shall be addressed with the teacher who issued the grade and the building level administrator.

Conversion of Letter Grade to a Numerical Grade

Schools will use the following scale to convert letter grades to numerical grades for students enrolling in the district with only letter grades and no numerical value assigned from the school they previously attended.

Transfer students with any other non-traditional grades or no grades will be reviewed by the school's local Multi-Tier System of Supports (MTSS) team (i.e., principal, teacher, counselor, and interventionist) and the assistant superintendent to determine the appropriate numerical grade. The school's local MTSS team must keep all documentation used to determine the appropriate grade including, but not limited to, MTSS meeting minutes, assessment (i.e., STAR or any other standardized assessment), report card from sending district/school and an intervention plan.

Grading Changes

No school board member, school superintendent, assistant superintendent, principal, guidance counselor, other teachers, coaches, or other administrative staff members of the school or the central staff of a local school board shall attempt, directly or indirectly, to change, alter, or otherwise affect the grade received by a student from his teacher except as otherwise specifically allowed by this section.

A teacher's determination of a student's grade as a measure of the academic achievement or proficiency of the student shall not be altered or changed in any manner by any school official or employee other than the teacher except as provided in this subsection.

A school official or employee having authority provided under formally adopted written rules and procedures adopted by the local school board to change a student's grade can take such action only upon it being determined that the grade is an error or that the grade is demonstrably inconsistent with the teacher's grading policy.

Any local school district or personnel employed by the school district who violates the provisions of this section shall cause the local school district or school to be subject to losing its accreditation in the manner determined by the policies and procedures of the Mississippi Board of Education.

Pursuant to the Commission on School Accreditation and the Mississippi Board of Education, grading is the responsibility of teachers. Any change of grades, other than a final grade, shall be addressed with the teacher who issued the grade and the building level administrator.

Any change of a final grade (as recorded on a cumulative folder or permanent record) shall be presented and approved by a panel consisting of, at a minimum, the teacher issuing the grade, the building level administrator, and a central office administrator.

Any change of a final grade (as recorded on a cumulative folder or permanent record) shall be presented and approved by a panel consisting of, at a minimum, the teacher issuing the grade, the building level administrator, and a central office administrator.

Written documentation (which includes signatures of all panel members) of all actions must be included in the cumulative folder and available for review by the Mississippi Department of Education. Any changes or corrections must be made on the cumulative folder and permanent record as required by the Mississippi Cumulative Folders and Permanent Records Manual of Directions. If the district is going to mandate or require the awarding of a minimum grade, then the district must adopt a written board policy that includes input and support from administrators, teachers, and stakeholders in the development of said policy. Districts may adopt specific grading policies that address the needs of special populations such as students with disabilities and English Language Learners.

For a copy of the Mississippi Cumulative Folders and Permanent Records Manual of Directions, please visit the Mississippi Secretary of State's website at Regulations and Enforcement.

The Awarding of a Minimum Grade

No student in grades 1 - 5 shall receive a grade of less than 60 in any subject.

No student in grades 6 - 12 shall receive a grade of less than 50 in any subject.

PROMOTION AND RETENTION OF STUDENTS

—Board Policy JBJ

The Superintendent and staff of the Jackson Public School District recognize the need to ensure that the behavioral and academic needs of every student are met through an instructional model that is designed to address student learning with classroom instruction and opportunities for intervention.

Section 1: Instructional Model Which Consists of Three (3) Tiers of Instruction

The Jackson Public School District adheres to the Mississippi Department of Education's three-tier policy on intervention for students experiencing academic and / or behavioral problems as follows:

Tier I: Quality classroom instruction based on the Mississippi Curriculum Framework

Tier II: Focused supplemental instruction

Tier III: Intensive interventions specifically designed to meet the needs of individual students

Teachers should monitor student progress through multiple assessment strategies, identifying students in need of assistance as soon as they begin to fall behind, and modify instruction to assure that every student gains essential skills. If supplemental support strategies in Tier I and Tier II are unsuccessful, students must be referred to the school Teacher Support Team (TST).

Teacher Support Teams

Each school must have a Teacher Support Team (TST) implemented in accordance with the process developed by the MDE. The chairperson of the TST shall be the school principal as the school's instructional leader or the principal's designee. The designee may not be an individual whose primary responsibility is special education. The Teacher Support Team (TST), which operates under the jurisdiction of the school principal is the problem-solving unit responsible for interventions developed at Tier III. Interventions must be:

- a. research-based
- b. designed to address the student's specific deficit areas
- c. implemented as designed by the TST
- d. supported by data regarding the effectiveness of interventions

Any student suspected of having a disability or experiencing significant academic and / or behavioral difficulties should be referred to the school's TST for review. If a student's parents request an evaluation for their child, that student should be referred to the TST. The TST procedures should be followed whether a teacher or a parent makes the referral. The student's information will be reviewed by the school TST for the purpose of designing effective interventions and making appropriate recommendations for the student. Written documentation of the request made, the information reviewed, and the decisions/recommendations of the TST must be kept on file at the school.

The Jackson Public School District adheres to the Mississippi Department of Education guidelines regarding certain mandatory referrals to TST. Failure to make adequate progress following Tier I and Tier II, students will be referred to the TST if any of the following events occur:

- A. Students in grades 1-3 who have failed one (1) grade;
- B. Students in grades 4-12 who have failed two (2) grades;
- C. Students who failed either preceding two (2) grades and have been suspended or expelled for more than 20 days in the current school year; or

- D. Students scoring at the Minimal level on any part of the Grade 3 or Grade 7 Mississippi statewide accountability system,
- E. A student is promoted from grade 3 to 4 under a good cause exemption of the Literacy-Based Promotion Act.

Referrals to the TST must be made within the first twenty (20) days of a school year if the student meets any of the criteria A-E stated above.

Intensive Reading Instruction

In accordance with the Literacy-Based Promotion Act of 2013, each student who exhibits a substantial deficiency in reading at any time, as demonstrated through:

- performance on reading screener approved or developed by MDE, or
- locally determined assessments and teacher observations conducted in Kindergarten and grades 1 through 3, or
- statewide end-of-year assessments or approved alternate yearly assessments in grade 3, must be given intensive reading instruction and intervention immediately following the identification of the reading deficiency.

Progress Monitoring

Teachers should use progress monitoring information to:

- a. determine if students are making adequate progress,
- b. identify students as soon as they begin to fall behind, and
- c. modify instruction early enough to ensure each student gains essential skills.

Monitoring of student is an ongoing process that may be measured through informal classroom assessment, benchmark assessment instruments, and large-scale assessments. After a referral is made, the TST must develop and begin implementation of intervention(s) within two weeks. No later than eight weeks after implementation of the intervention(s), the TST must conduct a documented review of the interventions to determine the success of the intervention(s). No later than 16 weeks after implementation of the intervention(s), a second review must be conducted to determine whether the intervention(s) is successful. If the intervention is determined to be unsuccessful, then the student will be referred for a comprehensive assessment.

Required Screening

All students in Kindergarten and grades 1 through 3 shall be administered a state-approved screener within the first 30 days of school and repeated at mid-year and at the end of the school year to identify any deficiencies in reading. In addition to failure to make adequate progress following Tier I and Tier II, students will be referred to the TST of interventions.

A dyslexia screener must be administered to all students during the spring of their kindergarten year and the fall of their first-grade year. The screening must include the following components:

- Phonological awareness and phonemic awareness;
- Sound-symbol recognition;
- Alphabet knowledge;
- Decoding skills;
- Encoding skills; and
- Rapid naming, quickly naming objects, pictures, colors, symbols (letters or digits) aloud.

Each school will complete documentation as required by MDE for all students in Tier II or Tier III. All Tier II and Tier III documentation must accompany the student’s cumulative folder upon promotion or transfer to a new school.

Section II: Grades K-5

A. Kindergarten

It is the goal of the kindergarten program to provide all students with the school readiness skills they need to be successful in the first grade. A student may be retained in kindergarten for an additional year if the district deems that placement of the student in the first grade would not be the most appropriate educational placement. Students in kindergarten must master state core objectives in reading, language arts, and mathematics.

1. Kindergarten Philosophy and Goals

The kindergarten program shall reflect an understanding of child development principles. These principles shall be embodied in the curriculum design and general learning environment. The instructional delivery is to be organized around learning centers where opportunities are provided for children to acquire skills and concepts that include problem-solving, decision-making, questioning, evaluating, and discovering.

2. The goals for kindergarten are outlined below:

- a. Develop a positive self-concept.
- b. Achieve intellectual growth.
- c. Enlarge student’s world of people, experiences, ideas, and things.
- d. Increase competences and skills in reading, writing, listening, thinking, and speaking.
- e. Increase the skills involved in physical coordination.
- f. Increase competence in dealing with emotional feelings and social situations.
- g. Increase competence in self-direction and independence.
- h. Develop cooperative trusting relationships.
- i. Develop a natural curiosity and creative potential.

3. Learning Principles

Effective educational planning for young children takes into account knowledge of human growth and development. The learning principles that guide this planning include the following:

- a. Children learn as total persons (emotionally, socially, physically, and intellectually).
- b. Children go through similar stages of development but at individual rates.
- c. Children learn through their senses (hearing, seeing, touching, tasting, and smelling).
- d. Children learn through active involvement (exploring, playing manipulating and problem-solving)
- e. Children learn through attitudes as well as through content; therefore, attention should be given to methods, emotional climate, environment, and teacher-child interaction.
- f. Children learn through play; therefore, sensitivity to the value of play is required, for it is through play that children create their own meaning and learning schemes. Play is the work of the child.

B. Grade 1

Students must master the State Core Curriculum and the district objectives in reading, language arts, and mathematics with a grade average of 60 in each subject.

C. Grade 2

Students must master the State Core Curriculum, which will be embedded in the term and semester test, and the district objectives in reading, language arts, and mathematics with a grade average of 60 in each subject.

D. Grade 3

Students must master the State Core Curriculum and the district objectives in reading, language arts, and mathematics with a grade average of 60 in all academic subjects (reading, language arts, mathematics, science/health, and in social studies).

LITERACY BASED PROMOTION

In compliance with the “Literacy-Based Promotion Act,” it is the intent of Jackson Public School District to improve the reading skills of kindergarten through third-grade students so that every student completing the third grade is able to read at or above grade level. Each kindergarten-third grade student’s progression is determined, in part, using the student’s proficiency reading in the areas of phonemic awareness, fluency, and comprehension.

Intensive Reading Instruction and Intervention

Each student who exhibits a substantial deficiency in reading at any time, as demonstrated through performance on a reading screener approved or developed by the State Department of Education, statewide end-of-the year exam, or approved alternate assessment in Grade 3, shall be given intensive reading instruction and intervention immediately following the identification of the reading deficiency.

The universal reading screener or locally determined reading assessment may be given in the first 30 days of the school year and repeated at mid-year and at the end of the school year to determine student progression in reading in

Kindergarten-Third Grade. If it is determined that the student continues to have a reading deficiency, the student shall be provided with continued intensive reading instruction and intervention by the district until the reading deficiency is remedied.

Parent Notification of Reading Deficiency

Immediately upon the determination of a reading deficiency, and subsequently with each quarterly progress report until the deficiency is remediated, the parent or legal guardian of a kindergarten-third grade student who exhibits a substantial deficiency in reading shall be notified in writing by the student's teacher of the following:

1. That the student has been identified as having a substantial deficiency in reading;
2. A description of the services that the school district currently is providing to the student;
3. A description of the proposed supplemental instructional services and supports that are designed to remediate the identified area of reading deficiency which the school district plans to provide the student;
4. That if the student's reading deficiency is not remediated before the end of the student's third-grade year, the student will not be promoted to fourth grade unless a good cause exemption specified below is met;
5. Strategies for parents and guardians to use in helping the student to succeed in reading proficiency.

Social Promotion Prohibited

In compliance with the "Literacy-Based Promotion Act," social promotion is prohibited in the Jackson Public School District. A student may not be assigned a grade level based solely on the student's age or any other factors that constitute social promotion.

Beginning in the 2014-2015 school year, if a student's reading deficiency is not remedied by the end of the student's third grade year, as demonstrated by the student scoring at the lowest achievement level in reading on the state accountability assessment or on an approved alternative standardized assessment for third grade, the student shall not be promoted to fourth grade.

The LBPA was amended in 2016 and includes changes such as Individual Reading Plan (IRP) and increased expectations for third grade students beginning in 2018-2019.

Good Cause Promotion

A student who does not meet the academic requirements for promotion to the fourth grade may be promoted by the school district only for a good cause. Good cause exemptions for promotion are limited to the following students:

- A. Limited English proficient student who has less than two years of instruction in an English Language Learner program
- B. A student with a disability whose individual education plan (IEP) indicates that participation in the statewide accountability assessment program is not appropriate, as authorized under state law
- C. A student with a disability who participates in the state annual accountability assessment and who has an IEP or a Section 504 plan that reflects that the individual student has received intensive remediation for two years but still demonstrates a deficiency in reading or was previously retained in kindergarten or first, second, or third grade
- D. A student who demonstrate an acceptable level of reading proficiency on an alternative standardized assessment approved by the State Board of Education

- E. A student who received intensive intervention in reading for two or more years but still demonstrates a deficiency in reading and who previously was retained in kindergarten or first, second, or third grade for a total of two years and has not met exceptional education criteria

Good Cause Request

A request for good cause exemptions for a third-grade student from the academic requirements established for promotion to fourth grade shall be made consistent with the following:

1. Documentation shall be submitted from the student's teacher to the school principal, which indicates that the promotion of the student is appropriate and is based upon the student's record. The documentation shall consist of the good cause exemption being requested and shall clearly prove that the student is covered by one of the good cause exemptions listed above.
2. The principal shall review and discuss the recommendations with the teacher and parents and make a determination as to whether or not the student should be promoted based on requirements set forth by law. If the principal determines that the student should be promoted, based on the documentation provided, the principal shall make the recommendation in writing to the school district superintendent, who, in writing, may accept or reject the principal's recommendation.

The parents of any student promoted may choose that the student is retained for one (1) year, even if the principal and district superintendent determine otherwise.

Parent Notification of Third Grade Retention

Written notification shall be provided the parent or legal guardian of any third-grade student who is retained that the student has not met the proficiency level required for promotion and the reasons the student is not eligible for a good cause exemption. The notification shall include a description of proposed interventions and supports that will be provided to the child to remediate the identified area of reading deficiency. This notification shall be provided to the parent or legal guardian in writing, in a format adopted by the Mississippi Board of Education in addition to report cards given by the teacher. Parents and legal guardians of the third-grade students shall be provided with a "Read at Home" plan outlined in a parental contract, including participation in regular parent-guided home reading.

Retained Third Graders

Third graders who are retained who fail to pass the third-grade summative assessment and do not qualify for a good cause exemption must be provided:

- Intensive instructional services
- Progress monitoring
- Ninety minutes of research-based reading instruction in the five components of reading

In the event that a student passes the Mississippi Academic Assessment Program (MAAP) in reading or the third-grade MKAS, but fails a content-area subject (reading, language arts, math, science and / or social studies), he or she may attend summer school for promotion in that content-area. If a student fails more than two subjects, he or she will not be eligible to attend summer school and must repeat the third grade.

Interventions for Students with Good Cause Exemptions

A student who is promoted to fourth grade with a good cause exemption shall be provided intensive reading instruction and intervention informed by specialized diagnostic information and delivered through specific reading strategies to meet the needs of each student so promoted.

Intensive Acceleration Support Classes

The Jackson Public School District may provide, where applicable, an intensive acceleration support class for certain students' purposes:

- For any student retained in Grade 3 who was previously retained in Kindergarten or Grades 1 through 3
- To increase a student's reading level at least two (2) grade levels in one (2) school year;
- Should provide instruction and intervention for the majority of the student contact each day; and
- Incorporates opportunities to master the Grade 4 state standards in other core academic areas.

E. Grade 4

Students must master the State Core Curriculum and the district objectives in reading, language arts, and mathematics with a grade average of 60 in each subject. Students must also have an overall average of 60 in all academic subjects (reading, language arts, mathematics, science/health, and social studies).

F. Grade 5

Students must master the State Core Curriculum and the district objectives in reading, language arts, and mathematics with a grade average of 60 in each subject. Students must also have an overall average of 60 in all academic subjects (reading, language arts, mathematics, science/health, and social studies).

Section III: Middle School Grades 6, 7, AND 8

To be promoted from grade 6 to grade 7 to grade 8, a student must meet the minimum standards as listed.

Minimum Standards

1. Students shall pass each of the following major courses with a grade of 60 or above:
 - Language Arts
 - Mathematics
 - Science
 - Social Studies
2. Students who do not meet minimum skill mastery requirements will:
 - a. Be retained at an appropriate grade level when a failure occurs, or
 - b. Attend a tuition summer school program, and if minimum performance standards are met, the promotion will be granted. However, summer school attendance does not assure promotion to the next grade. Only students failing a maximum of two (2) courses, including algebra and pre-algebra, with at least a grade of fifty (50) in each course can be expected to successfully complete the course objectives during the six-weeks summer session to be promoted to the next grade. Students with three (3) or more Fs cannot attend summer school for promotion.

- c. Any student who fails Algebra I and no more than one (1) other course are required to do the following in order to be promoted to the 9th grade:
 - Take and pass, in summer school, the course, other than Algebra I, that was failed; and one of the following:
 - Attend a summer remediation course in Algebra I;
 - Enroll in Algebra I during the following school year; or
 - Enroll in and pass Algebra I before completing high school.
- 3. Grades six through eight will each be tested using a district-wide test at intervals as follows: 1st Nine Weeks, 1st Semester, 3rd Nine Weeks, and 2nd Semester.

Section IV: High School – Grades 9, 10, 11, AND 12

- A. Promotion in grades nine through 12 shall be based upon each pupil’s accumulation of earned course units (Carnegie units). The Core Curriculum, which includes state and district objectives, requires a final grade of 60 in each subject before Carnegie units will be awarded. Please see Policy IGB/JBQ for a detailed explanation of JPS’s graduation requirements.
- B. An exceptional education student who is a candidate for a standard high school diploma shall follow the same criteria for mastery and promotion as for other students. Appropriate modifications and accommodations, as defined by the IEP, will be followed.

An exceptional education student who cannot meet basic skills as set forth in the district curriculum, but does successfully complete the individual educational program (IEP), may be moved to the next level. A certificate will be granted upon completion of the program. The decision regarding participation in this program will be made by the student’s individual educational program team, which must contain a school counselor.
- D. An exceptional education student that meets the criteria for having a significant cognitive disability may participate in a program of study to earn an Alternate Diploma

VALEDICTORIAN AND SALUTATORIAN

Overview

The criteria for selection of the valedictorian and salutatorian will be based on all credit courses taken towards graduation. The student having the highest and second highest-grade point average during his / her school period shall be recognized as Valedictorian and Salutatorian, respectively. A student must have attended the respective JPS high school for a minimum of four semesters, which is inclusive of their senior year (not including summer school), and must be completing a 4-year course of study, to be considered for valedictorian or salutatorian.

Transfer Students

In the event that number grades are not sent from a prior school and verification is present that efforts have been made to secure the number grades and these efforts have been unsuccessful, then transfer students' grades will be averaged using the midpoint grade. Grades/credits earned through home schooling and non-accredited schools will not count towards Valedictorian and Salutatorian.

Grade Point Average

The grade point average will be calculated at the end of semester 2 to determine the top two students.

Co-Valedictorians and Salutatorians

In selecting the valedictorian, if the grade point average of the top graduates is the same or is a difference of less than .03, then co-valedictorians will be named.

In selecting the salutatorian, if the second highest grade point average – after the valedictorian's average is determined – is the same or is a difference of less than .03, then co-salutatorians will be named.

When co-valedictorians and co-salutatorians are named, they will be honored in alphabetical order.

TOP TEN SCHOLARS

Overview

The criteria for selection of the Top Ten Scholars for each high school will be based on all credit courses taken towards graduation. The top ten students having the highest and second highest-grade point average during his / her school period shall be recognized as a Top Ten Scholar. A student must have attended the respective JPS high school for a minimum of four semesters, which is inclusive of their senior year (not including summer school), and must be completing a 4-year course of study, to be considered as a Top Ten Scholar.

Transfer Students

In the event that number grades are not sent from a prior school and verification is present that efforts have been made to secure the number grades and these efforts have been unsuccessful, then transfer students' grades will be averaged using the midpoint grade. Grades/credits earned through home schooling and non-accredited schools will not count towards Top Ten.

Grade Point Average

The grade point average will be calculated at the end of semester 2 to determine the top ten students.

Identification of Honor

Top Ten Scholars will be honored in alphabetical order during special events and ceremonies.

EXEMPTION FROM FINAL EXAMINATIONS

Students meeting the following conditions will be eligible for exemption from final examinations:

- All graduating seniors with an 80 average or above in a subject for the year may be exempt from the final examination in that subject.
- Students in the ninth through eleventh grades with a 90 average or above in a subject for the year may be exempt from the final examination in that subject.
- Students in the ninth through twelfth grades who have perfect attendance and an average grade of 70 or above may be exempt from final examinations. A student who is tardy cannot be considered for perfect attendance nor exemption.

Students in the ninth through twelfth grades with missing work are ineligible for exemption from taking exams. Students shall not be informed of their exemption status until the day prior to the exam schedule beginning.

Students are expected to attend class on review days.

GRADUATION REQUIREMENTS

(Beginning with incoming ninth graders of 2017-2018)

—Board Policy IGB

Mississippi students now have the opportunity to make their high school diploma more valuable. Beginning in the school year 2018-2019, all 9th graders will choose whether they want to work toward a Traditional Diploma or take additional classes to earn an academic, distinguished academic or career and technical education endorsement. Each diploma option will prepare students to be successful after graduation, whether that is in the workforce, a career and technical training program or college. The assessment options for graduation include the following—

- passing the subject area tests in Algebra I, English II, Biology I, and U.S. History;
- using a concordance table by combining grades and scale score values;
- using a composite score of 646 using results from Algebra I, English II, Biology I, and U.S. History;

EARLY RELEASE

—Board Policy IGBA / JBQA

Early release from classes may be granted to senior high school students who are employed or who have been accepted for and maintain active dual enrollment at a community or four (4) year college.

Beginning with incoming ninth graders of the school year 2018-2019, for early release, students must have met College or Career Readiness Benchmarks (ACT sub scores 17 English and 19 Math or earned a Silver level on ACT Work-Keys or SAT equivalency sub scores).

Alternately, if a student does not meet the College or Career Readiness Benchmarks, a student must meet all of the following:

- Have a 2.5 GPA,
- Passed or met all state assessments required for graduation,
- Be on track to meet diploma requirements,
- Enrolled in Essentials for College Math or Essentials for College Literacy, if needed.

Early release is a privilege and can be revoked should a student violate any of the above-mentioned criteria.

SUMMER SESSIONS / EXTENDED SCHOOL YEAR

—Board Policy AEB/IDC

Summer school and extended year programs will meet all applicable requirements of the regular school program. Students enrolled in these programs will complete all remaining course, subject requirements, and objectives before credit for the course or subject is issued. High school students enrolled in a summer program are limited to earning one Carnegie unit of credit during the traditional summer school session, which does not apply to extended year programs and approved virtual courses.

The approval of the principal of the home school must be documented before enrollment of a student from another school within or from outside the district is officially approved.

- a. A student shall be allowed to enroll in a maximum of two courses annually under the extended school year program.
- b. A student who is enrolled in a course under the extended school year program shall not be allowed to enroll in a course offered for new credit under the summer school year.

This policy is not applicable to the extended school year (ESY) provided to students through the special education programs. The superintendent may promulgate procedures and regulations in accordance with this policy.

DROPOUT PREVENTION

—Board Policy JK

Leaving school before graduation or “dropping out” can be attributed to many complex factors. A dropout is a pupil who leaves school, for any reason except death, before graduation or completion of a program of studies and does not transfer to another school. Such an individual is considered a dropout, whether the “dropping out” occurs during or between regular school terms.

The Jackson Public School District proposes to utilize existing policies and programs to the fullest extent possible to prevent students from dropping out. It is also the intent of the district to incorporate new strategies and to develop innovative techniques to encourage Jackson Public School District students to remain in school until graduation requirements are completed.

CREDIT RECOVERY

—Board Policy JKA

The purpose of the credit recovery policy is to provide guidance to the Board of Trustees and District personnel in the implementation of the Jackson Public School District’s credit recovery program. Credit recovery allows students who have been unsuccessful in mastering particular content or skills an opportunity to apply for credit recovery as an alternative to repeating the entire course.

Counselors, teachers, and administrators shall identify students appropriate for participation in the credit recovery program offered at the school, with the recommendation based on aptitude, motivation, and need. Each participant shall complete an application process that requires—at a minimum—teacher recommendation(s), an outline of the course objectives that will be covered, mastery criteria, timelines for completion of the program and parental consent. All parent and student requests shall be considered. For additional information, please refer to the district’s website.

ONLINE AND BLENDED LEARNING PROGRAM

—Board Policy JKL

The purpose of the online and blended learning program policy is to provide guidance regarding the use of online courses through the Mississippi Virtual Public School (MVPS), the Mississippi Interactive Video Network (MIVN), independent study programs, and other online course providers. Please refer to Board Policy JKL for additional guidelines.

Counselors, teachers, and administrators shall identify students appropriate for participation in the credit recovery program offered at the school, with the recommendation based on aptitude, motivation, and need. Each participant shall complete an application process that requires—at a minimum—teacher recommendation (s), an outline of the course objectives that will be covered, mastery criteria, timelines for completion of the program and parental consent. All parent and student requests shall be considered. For additional information, please refer to the district’s website.

COLLEGE PREPARATORY CURRICULUM(CPC)

Effective summer 2012, the Mississippi Institutions of Higher Learning universities will admit Mississippi High School graduates under both a required and recommended College Preparatory Curriculum (CPC). The minimum required CPC is 16 ½ Carnegie units. The recommended CPC is 19 ½ Carnegie units. The CPC is recommended for enhancing student readiness for university-level coursework.

The CPC is aligned with current Mississippi high school graduation requirements and course offerings. The CPC and accompanying course list ensure uniformity of courses being accepted in each category of the CPC across Mississippi's eight public institutions.

SECTION 8: CODE OF CONDUCT

BEHAVIOR MODIFICATIONS

—Chapter 38, Rule 38.2 Behavior Modifications
Mississippi Department of Education

The Jackson Public School District's Code of Conduct provides a behavior modification program that contains procedures and research-based strategies which

- (a) include a (proactive) prevention component for all students;
- (b) include interventions designed to deal with common disciplinary problems;
- (c) provide an intensive intervention program for low-incidence behavior problems;
- (d) provide professional development for all team members and parents;
- (e) provide a safe and disciplined environment where teaching and learning can take place; and
- (f) permit implementation of the Safety Plan for the district and each school.

STUDENT CONDUCT

—Board Policy JCB

The Jackson Public School District Board of Trustees firmly believes that a positive school culture promotes equal educational opportunity and establishes the framework for a safe learning environment. Students have a right to public education, but with this right comes personal responsibility. Education is a process that requires a safe and orderly environment, and students have a responsibility to know and to respect the rules and regulations of the school. Students are responsible for conducting themselves in an appropriate manner at all times. Students who obstruct any teaching, administrative, or extracurricular activity whether in school, on the playground, at a school-related event or activity, or en route to or from school shall be subject to such disciplinary procedures as set forth by the superintendent.

- Parents, legal guardians, or custodians of a compulsory-school-age student enrolled in a public school in the district shall be responsible financially for his or her minor child's destructive acts against school property or persons.

- A parent, guardian, or custodian of a compulsory school age student may be requested to appear at school by an appropriate school official for a conference regarding acts of the student.
- Any parent, guardian or custodian of a compulsory-school-age child enrolled in this District who refuses or willfully fails to attend such discipline conference specified in paragraph (b) of this section may be summoned by proper notification by the superintendent of schools or the school attendance officer and be required to attend such discipline conference; and
- A parent, guardian or custodian of a compulsory-school-age child enrolled in this district shall be responsible for any criminal fines brought against such student for unlawful activity occurring on school grounds or buses.

Every teacher is authorized to hold every student to strict accountability for an orderly environment. Every student is strictly accountable for any disorderly conduct in school or on the playground at a school-related event or activity, or en route to or from school.

For a proper learning environment to be maintained, each school must implement Positive Behavioral Interventions and Supports (PBIS) strategies to define, teach, model, and support appropriate student behaviors to maintain positive school environments. Administrators and teachers will make certain that all students understand the conduct appropriate for attendance at school and its sponsored activities as well as in the classroom. The board believes that it is the responsibility of all students, teachers, and administrators to see that such a positive learning environment is achieved.

DISCIPLINARY ACTION

—Board Policy JCI

When a student’s behavior, speech, and / or attitudes are unacceptable and reasonable effort to bring about improvement has not proved effective, more positive action shall be taken.

DISCIPLINARY ACTION PROCEDURES

—Board Policy JCI Procedures

Section I: Suspensions and Expulsions

1. Principal’s Authority to Impose Suspensions

- a. The principal may suspend a student for no longer than 10 consecutive school days. Recommendations for suspensions of more than 10 days are reserved for serious disciplinary offenses. In such cases, a hearing before the School Appeals Committee will be held on or before the tenth school day after the suspension is initiated.
- b. In cases where the principal’s recommended disciplinary action is a suspension of 11 school days or longer or expulsion, the principal may suspend a student for no longer than 10 consecutive school days until a hearing by the committee.

2. Hearings and Procedure

a. Suspensions of 10 School Days or Less

Suspensions of at least one but not more than 10 consecutive school days shall be preceded by and predicted upon an informal due process hearing conducted by the principal at the campus level, which will be the only hearing conducted in such cases. (See JCJ, Section I for the procedure at informal due process hearing.)

b. Suspensions in Excess of 10 School Days and Expulsions

This section shall apply to cases in which the principal recommends to the superintendent or designee the suspension of a student for more than 10 consecutive school days or expulsion. The principal will first conduct an informal due process hearing. The principal will then determine what recommended disciplinary action, if any, is appropriate. If the principal determines that suspension of over 10 days or expulsion is in order, the student will be given a “Notice of Recommendation for Suspension or Expulsion and Statement of Rights Thereunder.” The notice will contain a statement of the charges, date, time, and place of the hearing before the School Appeals Committee, and will advise the student of his right to legal counsel. A copy of the notice will be hand delivered to the student when possible and the original mailed to the parents unless delivery is made in person. In cases where the principal’s recommended disciplinary action is a suspension of more than 10 days or expulsion, the hearing shall automatically be scheduled no later than the tenth school day following the JCI date of the notice. Pending the outcome of the appeals committee hearing, students may attend the alternative school.

Section II: Hearing by the School Appeals Committee

At the hearing, informal procedures shall be followed, and formal rules of evidence shall not apply. The accused student will be permitted to cross-examine any witnesses present and will be permitted to present arguments and evidence both by himself and through his counsel. He may be represented by a parent, legal guardian, or legal counsel at the hearing. The School Appeals Committee shall record all the facts considered before making a decision. If the action of the board is required due to an appeal in writing of the decision by the student and his parent or legal guardian, the decision shall be rendered in writing (recorded) and presented at the next regular or called meeting of the board with its recommendations. Otherwise, the designee of the superintendent shall advise the parent of the student and principal of the school of the committee’s decision verbally and in writing as soon as possible.

The record of proceedings and recommendations of the committee, for cases not requiring board action due to an appeal, shall be made available to the student, his parent or legal guardian, or attorney upon request. Failure of the student, his parent or legal guardian, or attorney to appear at the appointed time and place for the hearing shall waive the student’s right to a hearing. In the event the hearing is waived, the School Appeals Committee shall consider the facts, take appropriate action, or recommend appropriate action to the board along with a summary of the case. Parents who waive in writing their right to appear at the Student Appeals Committee hearing are deemed to have also waived their right to appeal the decision to the board.

Section III: Reporting

An adequate supply of appropriate forms will be maintained in every school for reporting suspensions or expulsions. Such reports are to be completed with one copy being retained by the principal, and one copy is filed with the superintendent or designee on the day disciplinary action is taken. The purpose of these reports is to ensure the judicious use of these types of punishment and to serve as a record of causes and of disciplinary action.

The **Response Steps and Interventions** chart below is used to correct inappropriate behavior and actions of students. If interventions are successful, a referral to the school administrator may not be necessary. These interventions aim to teach, correct, and replace behaviors so students can learn and demonstrate safe and respectful behaviors. Staff members are encouraged to implement a variety of teaching and classroom management strategies. Staff members are encouraged to implement various levels of responses and interventions with students at all times during regularly scheduled school hours. In addition, this procedure applies while a student is located on or off school property during fields trips, school-sponsored events, athletic functions, while being transported on district vehicles and during any other school-related extracurricular activity. Administrators are encouraged to use the lowest **Response Steps** to address inappropriate behavior. Serious behaviors that are deemed harmful to the safe and orderly environment of the school will be addressed at the highest level.

<p>This response aims to teach and correct inappropriate behavior so students can learn, act respectfully, and contribute to a safe environment. SUSPENSION AND EXPULSION

—Board Policy JCH / JCI

A student may be expelled from school upon recommendation by the principal and superintendent, and approval by the board if the student and his parent or legal guardian request in writing an appeal to the board. All suspensions imposed or recommended by the principal shall be preceded by, and initially predicated upon, an informal due process hearing conducted by the principal. No student shall be suspended without affording him or her an opportunity to express his or her version of the incident to the principal or assistant principal after being fully advised of the charges lodged against him or her and the right of the student to due process. (See JCJ, Section I for the procedure at an informal due process hearing.) The principal is authorized to suspend a student for a period not to exceed ten consecutive school days, effective the day following the date of the incident.

Educational services for students with disabilities who have been suspended or expelled from school shall be provided based on the requirements of the Individuals with Disabilities Education Improvement Act (IDEA), applicable federal regulations and state regulations.

Recommended suspensions of more than 10 days or expulsions are reserved for more serious disciplinary offenses. In such cases, a hearing before the School Appeals Committee will be held on or before the tenth school day after suspension or expulsion is initiated.

Whenever a student is suspended, the parent or legal guardian must be notified immediately. Since scholastic standing is usually jeopardized when class activities are interrupted for the length of time, the suspension should be as brief as possible and consistent with bringing about cooperation between student, parents, and school personnel.

2. Before placement in the alternative school program, the principal or program administrator of the alternative school program shall obtain verification of the child's suitability for the program from the appropriate guidance counselor. Before a student can be removed to an alternative school education program, the superintendent shall determine that the written and distributed disciplinary policy of this district is being followed and that the policy includes standards for—

The removal of a student from the alternative school program on these grounds shall be reported in accordance with the applicable school board policies.
6. This school district shall submit a report by July 31 of each calendar year to the Mississippi Department of Education describing the results of its annual alternative school program review and evaluation undertaken pursuant to MS Code of 1972 Section 37-13-92. A student who has been suspended or expelled or otherwise denied the right to attend school in this school district has the right to due process. The board of Trustees will, upon a written appeal by the parent or legal guardian of a student suspended for 20 days or longer or expelled, review the disciplinary action.

DUE PROCESS

—Board Policy JCC

In meeting its responsibility to safeguard every student's right to an educational opportunity and to assure an atmosphere conducive to learning while protecting the individual rights of all students, this board utilizes a procedure for those cases in which the misconduct is of such a serious nature that it results or might result in material and substantial disruption of normal school functions. The board believes the procedure meets the standards of due process required by the law and the accepted standards of fundamental fairness.

The student is entitled to—

- (a) adequate notice of the charge against a student,
- (b) an opportunity for a hearing, and
- (c) a decision supported by the evidence.

The details of the due process procedure are contained in board policies JCH—Suspension and Expulsion and JCI—Disciplinary Action and Disciplinary Action Procedures.

PROHIBITION OF CORPORAL PUNISHMENT

—Board Policy JCIA

Corporal punishment has been prohibited in the Jackson Public School District since July 1, 1991. It continues to be the policy of the board of Trustees that corporal punishment is prohibited in the school district. Accordingly, the school district prohibits the use of corporal punishment. Corporal punishment is defined as punishment by striking, touching or hitting any portion of a student's body with a paddle, ruler, hand, or other instrument or as the infliction of, or causing the infliction of, physical pain on a student. The use of corporal punishment shall be grounds for discipline up to and including suspension without pay and termination.

Each school shall adopt a discipline plan consistent with the school district's Student Handbook and Code of Conduct that sets firm, consistent, positive limits, and that provides warmth and support for appropriate student behavior. Each school shall seek input from its site council during the development of discipline plans. Discipline should have the qualities of understanding, consistency, firmness, and fairness.

STUDENT RESTRAINT AND SECLUSION

—Board Policy JDHAB

The State of Mississippi, Department of Education and the Board of Trustees of the Jackson Public School District recognize that school staff will need to intercede in circumstances and situations where students display physically violent or disruptive behavior and such intervention is necessary to prevent the student from causing physical harm. It is the policy of the Jackson Public School District that students not be subjected to inappropriate and unnecessary control, restraint, or seclusion. The focus and purpose of this policy is the safe management of the student(s) and their instructive environment.

It is also the Board's intent to create and maintain a positive, safe learning environment and promote positive behavioral interventions and supports in the district's schools. The Board further recognizes that while the use of physical or mechanical restraints and seclusion is not a desirable outcome, it is sometimes necessary to maintain a positive, safe learning environment.

This board policy is hereby established for the use of physical control, restraint, and seclusion, and the notification and data reporting requirements for the use of physical control, restraint, and seclusion. It shall not prohibit, exclude or infringe upon the lawful exercise of law enforcement efforts by sworn law enforcement officers

Motorists must not proceed until all children have crossed the street to or from the school bus, the flashing red lights are no longer activated, and the stop sign on the side of the bus is retracted.
- Authorizes a charge of felony assault and a prison sentence of up to 20 years for motorists convicted of illegally passing a school bus that, in the process, results in injury or death.
- Authorizes cameras are equipped on school bus stop arms to film perpetrators in the act.
- Required the development of at least 10 questions relating to school bus safety on a driver's license test.
- Established a School Bus Safety TaskForce.

Network resources are intended for educational purposes and to carry out the legitimate business of the school district. STUDENT USE OF ELECTRONIC DEVICES

I. PURPOSE

The purpose of this policy is to set forth expectations for appropriate use of existing and emerging technologies which students may possess, including but not limited to **student-owned** cellular phones, digital picture/video cameras and/or camera phones, personal digital assistants (PDAs), iPods, MP3s, pagers and electronic devices capable of transmitting data or images.

It is recognized that parents may provide a cell phone to a student for safety or medical reasons. It is also recognized that these devices, which may be given with noble intent, can become distractions to the academic environment and therefore negatively impact instruction. In consideration of the advancement of technology and the prevalence of electronic devices in our society, the Board will allow the possession of cell phones and other electronic devices at school, on buses, and school-sponsored events, as outlined within this policy.

II. GENERAL STATEMENT OF POLICY

Students who possess and / or use such devices at school or school-sponsored events shall demonstrate the greatest respect for the educational environment and the rights and privacy of all individuals within the school community. The possession of an electronic device is not a violation of the Code of Student Conduct. However, the possession of an electronic device when used to disturb the educational process, carry out criminal activity, or disturb/interfere with the safety-to-life issue for students being transported on a Jackson Public Schools bus or at school facilities, are infractions of the Code of Student Conduct.

III. STANDARDS FOR RESPONSIBLE USE AT SCHOOL, ON SCHOOL BUSES OR AT SCHOOL ACTIVITIES

- i. Cellular phones and other personal electronic devices shall be turned off and kept out of sight at all times, including the daily bus ride to and / or from school.

- ii. Students shall neither e-mail, post to the Internet, nor electronically transmit images of other individuals taken at school without their expressed written consent.
- iii. Students are strictly forbidden to either use or display cellular phones or other personal electronic devices in locker rooms and restrooms.

C. Assuring academic integrity

D. Compliance with Other District Policies

Use of cellular phones or other personal electronic devices must not violate any other District policies, including those regarding student privacy, code of student conduct, electronic technologies acceptable use, or harassment. V. WAIVER OF LIABILITY

Jackson Public School District will not be responsible for any damaged, lost, or stolen wireless communication or personal technology device. Neither will school district employees be held liable for wireless communication or personal technology devices that are damaged, lost, or stolen.

Note: Numerous wireless communication devices are reported stolen each year. Students are expected to treat their phone and other personal electronic devices as if they were a \$500 bill. One would not be careless with a \$500 bill, so do not be careless with your phone or other personal technology devices, leaving them unattended or not locked up. If you have a wireless communication device or other personal technology at school, and it gets stolen, do not expect school administrators to discontinue other administrative responsibilities to try to recover it for you. Your loss would be regrettable, but school personnel will be asked to investigate and seek recovery only as time and circumstances permit. Notwithstanding, all school policies are applicable to those determined to be responsible for the theft, damage, or destruction of such items.

VI. SUPPLEMENTARY PROVISIONS

No **students, teachers, or proctors** are allowed to possess and / or use any wireless communication or personal technology device, including (but not limited to) cell phones or personal digital assistance devices, during the administration of statewide tests. Wireless technology devices used only to administer the tests are excluded.

When deemed necessary, the Superintendent may develop additional guidelines or procedures consistent with the letter and spirit of this policy. All provisions of Jackson Public Schools Board Policy JIAA—Acceptable Use and Internet Safety Policy, which includes the Student Acceptable Use and Internet Safety Contract, are applicable to this policy upon its adoption.

SECTION 9: SPECIAL PROGRAMS

ACADEMIC AND PERFORMING ARTS COMPLEX (APAC)

The Academic and Performing Arts Complex (APAC) is open to students who are strong academic achievers and who show an aptitude for one or more of the visual or performing arts. There is an application process held during the fall and winter (October – November), and testing and auditions are held in the winter and spring (December – March) of each year for entrance into these programs of study for the following school year.

ACADEMIES OF JACKSON

The Academies of Jackson is a community-supported plan that aligns local and state initiatives to provide every student with the foundation of knowledge, skills, and character necessary to excel in higher education, work, and life. Jackson Public Schools (JPS) began district-wide, high school efforts to provide innovative options for students to prepare them to make critical post-secondary decisions about their career paths and for the world of work. The Academies of Jackson is the primary initiative to achieve the Jackson Public School District's vision and mission for students to graduate both college and career ready.

All physical facilities of the district will be available for use in the adult education program when such use does not conflict with uses already established. Activities will not be limited to those which can be conducted in school building but may be conducted at other places and with other facilities within the district with the prior approval of the superintendent or his designee.

ADVANCED PLACEMENT (AP®) EQUITY AND ACCESS POLICY

The College Board strongly encourages educators to make equitable access a guiding principle for their AP® programs by giving all willing and academically prepared students the opportunity to participate in AP. We encourage the elimination of barriers that restrict access to AP for students from ethnic, racial, and socioeconomic groups that have been traditionally underrepresented. Schools should make every effort to ensure their AP classes reflect the diversity of their student population. The College Board also believes that all students should have access to academically challenging course work before they enroll in AP classes, which can prepare them for AP success. It is only through a commitment to equitable preparation and access that true equity and excellence can be achieved. AP scores can earn students valuable credit and placement in college.

College Credit and Advanced Placement

One great benefit of taking AP Exams is the opportunity to earn college credit and placement. Nearly all colleges and universities in the United States grant credit and placement for qualifying AP scores. You can save money and get a head start on your degree when you enter college with credit you've already earned through AP.

College AP Credit Policies

Each college and university makes its own decisions about awarding credit and placement. Most have a written policy spelling out things like the minimum required score to earn credit for a given AP Exam, the amount of credit awarded, and how credits are applied.

How AP Can Help You Succeed in College

Taking challenging AP courses can help you get into college. Once you're in college, the skills that you developed in your AP courses — critical thinking, time management, study skills, etc. — will serve you well in college classes. AP can also help you save on college costs through AP credit, expanded scholarship opportunities, and a greater likelihood of graduating on time.

AP Around the World

The AP Program is a global academic program offered in secondary schools. Taking AP courses and exams provide you with a recognized academic credential, wherever your college plans lead you. Universities around the world recognize AP Exam scores for admission, credit, and placement.

At the end of each school year, in April or May, students are encouraged to take the corresponding AP® exam(s). For additional information, visit www.collegeboard.org.

ARTS ACCESS PROGRAM

Casey Elementary School has been an Arts Access school for nearly 20 years. In 1999, Casey became the first school in the Jackson Public School District to become a Whole School Model. The Whole Schools Initiative is a school improvement effort promoted by the Mississippi Arts Commission to incorporate the arts fully into all aspects of a school's curriculum.

The Arts Access Program emphasizes the integration of visual and performing arts into all aspects of a school's curriculum. Increased test scores, as well as the development of self-esteem, are all nationally proven benefits of such a program. There are forms of art that are adaptable to all core curriculum, be it math, science, language arts, or physical education. The goal of Arts Access is not to develop performing artists but rather to enrich and enhance the academic learning of all students in all subject areas.

Goals of the Mississippi Arts Commission's Whole School Initiative

1
Arts Integration

To provide learning opportunities to improve student academic achievement through the integration of the arts into the core curriculum.

2
Arts Discipline

To increase students' and teachers' skills, knowledge, awareness, and experiences in all arts disciplines.

3
Professional Learning

To build a school culture with sustainable systems that support arts integration as an approach to teaching.

4
Community Involvement

To increase family and community engagement and understanding of the arts.

ASK FOR MORE ARTS

The Ask for More Arts Collaborative was launched in 2005 with funding from a Ford Foundation grant as a school-community-arts partnership designed to provide elementary students in Jackson Public Schools the opportunity of learning through the arts.

Ask for More Arts emphasizes integrating arts education into regular instruction in the elementary classroom. Teachers at partner schools receive high-quality training in how to use the arts to teach core subjects such as reading, math, science, and social studies and how to connect learning for children across the curriculum. Integrating arts into classroom teaching creates hands-on, highly engaged work for children that makes learning relevant and motivates students to take ownership of their success.

Collaboration with individual artists and arts organizations advances what is learned in the classroom with additional exposure to the arts. For example, schools will have opportunities to engage artists in residence who work with teachers and students to teach language or math concepts through drawing or dance. Schools will be encouraged to use field trips to museums or performances by professional artists to reinforce social studies, science, and other subject areas.

Ask for More Arts grew out of the very successful Ask for More Collaborative, established in 1999 in Lanier High School and the six elementary and two middle schools that feed students into Lanier High. In keeping with the Ask for More model of collaboration, Ask for More Arts partners meet regularly to develop and implement strategies that support learning through the arts, both in and outside the classroom. *(This program is offered each year, pending the availability of funding and approval by the Board of Trustees.)*

BASE PAIR / SOAR

Initiated in 1992 at Murrah High School, Base Pair was developed as a biomedical research mentorship program that paired faculty from the University of Mississippi Medical Center (UMMC) with high school students and educators

from one of the largest public school districts in the state of Mississippi, the Jackson Public School District. Teacher professional development and science curriculum enhancement activities have complemented the student participation to create a highly coordinated impetus for science education reform that has generated two innovative, teacher-initiated corollary programs, the Rural Biomedical Initiative (RBI) and the Student Oriented Academic Research (SOAR). From a modest start, Base Pair has exerted a significant, positive influence over science education, locally in the Jackson Metro area, throughout the state of Mississippi, regionally in the southeast and nationally through conferences, workshops, and presentations. Base Pair, the namesake program, allows students from Murrah High School to experience a long-term, bona fide biomedical research experience in a “hands-on” manner under the guidance and supervision of a UMMC faculty researcher.

The RBI program offers a flexible template for inquiry-based, hands-on high school science curricula amenable for schools in rural and often under-resourced locations. The SOAR program is an innovative, two-year science curriculum template, for schools within the district, that is focused on locally-generated student research and which is highly adaptable to individual school resources and constraints.

CAPITAL CITY ALTERNATIVE SCHOOL (CCAS)

The goals of CCAS are to provide quality educational programming for academically, behaviorally and/or emotionally at-risk students by: providing each student with an appropriate Individualized Instructional Plan (IIP) and/or Individualized Educational Program (IEP), ensuring that students receive individual and group counseling, social service and quality behavioral supports and related services, developing prosocial behavior skills necessary for transition back to traditional school settings and creating a safe, welcoming and caring school climate. Capital City Alternative School provides a continuation of educational services for students in grades 4-12 who have been suspended from their home school for more than 10 days.

CAREER DEVELOPMENT CENTER (CDC)

High school juniors and seniors have an opportunity to get extensive training in vocational areas by enrolling in classes at the district’s Career Development Center (CDC). Programs are designed for students who plan immediate employment or further vocational study after graduation. Offering national certifications, a national technical honor society, seven student organizations, and a strong business community base, students can choose from 17 career and technical education programs, including four programs with dual credit / dual enrollment opportunities. Programs are studied for two years, with job seeking skills and work values instruction included as a part of the training. Second-year students get on-the-job training through an apprenticeship program. Students who successfully complete the two-year program are awarded a certificate of proficiency.

CHARACTER EDUCATION

—Chapter 15: Character Education
Mississippi Department of Education

The district encourages all schools to ensure the inclusion of character education in the entire curriculum and to include character education in the staff development programs for teachers.

DUAL ENROLLMENT AND DUAL CREDIT

Mississippi Code of 1972: 37-15-38 established dual enrollment and dual credit programs for high school and postsecondary credit. The purpose of the Dual Enrollment and Credit Program is to offer structured opportunities for qualified high school students to simultaneously enroll in college courses at Mississippi (public) Institutions of Higher Learning (IHLs) or Mississippi Community or Junior Colleges (CJCs) that provide pathways leading to academic or career technical postsecondary credit. Currently, the Jackson Public School District has agreements with Hinds Community College, Tougaloo College, and Jackson State University.

HONOR SOCIETY

The **National Elementary Honor Society (NEHS)** was established in 2008 by the National Association of Secondary School Principals (NASSP) in partnership with the National Association of Elementary School Principals (NAESP). NEHS recognizes students in both public and nonpublic elementary schools for their outstanding academic achievement and demonstrated personal responsibility. Through NEHS, students provide meaningful service to the school and community and develop essential leadership skills. NEHS supports these purposes by strengthening the lives of our nation's elementary students and the schools in which they are enrolled.

By starting a chapter, elementary schools create a method for acknowledging achievement and focusing on the needs of the total child. In addition, NEHS provides information and resources to enhance the culture of achievement in the whole school, not merely the culture of a select few.

As the nation's newest student recognition program, NEHS joins the National Junior Honor Society (NJHS) and National Honor Society (NHS), the nation's two oldest and largest student recognition programs, in creating a continuum of excellence being established throughout the elementary, middle, and high school education community. Contact your child's school for additional information or visit www.nehs.org.

The **National Junior Honor Society (NJHS)** is the nation's premier organization established to recognize outstanding middle school students. More than just an honor roll, NJHS serves to honor those students who have demonstrated excellence in the areas of scholarship, service, leadership, character, and citizenship. Chapter membership not only recognizes students for their accomplishments but challenges them to develop further through active involvement in school activities and community service. Contact your child's school for additional information or visit www.njhs.org.

The **National Honor Society (NHS)** is the nation's premier organization established to recognize outstanding high school students. More than just an honor roll, NHS serves to recognize those students who have demonstrated excellence in the areas of scholarship, service, leadership, and character. These characteristics have been associated with membership in the organization since its beginning in 1921.

Today, it is estimated that more than one million students participate in NHS activities. National Honor Society chapters are found in all 50 states, the District of Columbia, Puerto Rico, many U.S. territories, and Canada. Chapter membership not only recognizes students for their accomplishments but challenges them to develop further through active involvement in school activities and community service. Contact your child's school for additional information or visit www.nhs.us.

INTERNATIONAL BACCALAUREATE PROGRAM

The International Baccalaureate® Program (IB) is a transdisciplinary program of international education designed to foster the development of the whole child. It is a program of international education designed to help students develop the knowledge, understanding, attitudes, and skills necessary to participate actively and responsibly in a changing world. The general objectives of the IB program are to provide students with a balanced education; to facilitate geographic and cultural mobility; to promote international understanding through shared academic experiences.

The International Baccalaureate® **Primary Years Program (IB-PYP)** is designed for students aged 3 to 12. It focuses on the total growth of the developing child, touching hearts as well as minds and encompassing social, physical, emotional, and cultural needs in addition to academic development. This program is offered at Davis Magnet Elementary School, grades K-5.

The International Baccalaureate® **Middle Years Program (IB – MYP)** is designed for students aged 11 to 16. This period, encompassing early puberty and mid-adolescence, is a particularly critical phase of personal and intellectual development and requires a program that helps students participate actively and responsibly in a changing and increasingly interrelated world. Learning how to learn and how to evaluate information critically is as important as learning facts. This program is offered in grades 6-8 at Northwest Jackson, and the MYP continues, grades 9-10, at Jim Hill High School.

The International Baccalaureate® **Diploma Program (IB - DP)** is an internationally recognized program of studies available at Jim Hill High School to highly motivated 11th and 12th-grade students. This program provides the rigor, the structure, and the experience necessary to challenge academically talented and motivated students. The IB – DP program comprises a holistic philosophy of learning that seeks to address the intellectual, philosophical, and social development of the student. The DP program is a two-year program of study across the disciplines. Subjects are studied concurrently, and students are exposed to the two great traditions of learning: the humanities and the sciences.

Students from throughout the district may apply for admission to the IB® program. Enrollment for the IB® program is based on grades, teacher recommendations, and standardized test scores.

JUNIOR RESERVE OFFICERS TRAINING CORPS (JROTC) PROGRAM

The Junior Reserve Officers Training Corps (JROTC) program of instruction focuses on the development of better citizens through the development of skills in Citizenship; Leadership Theory and Application; Science; and American History. JROTC classes are conducted in a structured interactive environment, and the JROTC classrooms are equipped with technology and tools to enhance student participation and learning. This course of study is normally completed in four years at a traditional high school (Grades 9-12). JROTC instructors are all highly qualified and experienced military veterans who have successfully completed 20 or more years of service in our Armed Forces. JROTC staff is committed to establishing a legacy of excellence as they strive to accomplish their mission- “to motivate young people to be better citizens.” They prepare high school students for responsible leadership roles while making them aware of their rights, responsibilities, and privileges as American citizens. The program is a stimulus for promoting graduation from high school, and it provides instruction and rewarding opportunities that will benefit the student, community, and nation.

LOWER ELEMENTARY ALTERNATIVE PROGRAM (LEAP)

Students enrolled in grades K-3 who have ongoing serious misconduct may be recommended for a LEAP assignment. The LEAP classroom is a short-term alternative program that operates under the guidelines of the MS State Department of Education Alternative Programming. Students who have been suspended and who are determined eligible by the Elementary Assistant Superintendent are transferred to the alternative site located at Dawson Elementary. The students will be afforded a wide-range of academic and behavioral supports appropriate for meeting his/her needs.

MONTESSORI PROGRAM

The Jackson Public School District has offered the Montessori Program for nearly fifteen years. Montessori program is in its twelfth year. Students, parents, teachers, and the community continue to be pleased with and excited about this program. Montessori education offers multi-aged classrooms with a strong emphasis on interactive, self-directed learning for pre-school and elementary children. At the heart of Montessori education is the emphasis on developing a child's sense of independence, responsibility, and respect for others. Each class includes students from more than one age group. For example, in a 3–6 classroom, there are 8 three-year-old children, 8 four-year-old children, and 8 five-year-old children. The 6–9 classrooms also have a three-year age group of children, 8 six-year-old students, 8 seven-year-old students and 8 eight-year-old students. The three-year age span provides a family-like grouping in which learning takes place naturally. The children stay with the same teacher for three years.

Montessori is a philosophy, which supports each individual child's unique development within a social environment in a home-like setting. This environment encourages social interaction for cooperative learning, peer teaching, and emotional development. The environment is filled with developmentally appropriate materials that provide experiences for children that help them grow into self-motivated, independent learners. Each child progresses at his or her own rate in any one particular domain—gross motor, fine motor, math, language, etc. The environment contains a variety of multisensory, sequential, and self-correcting materials, which facilitate the learning of skills and leads to the learning of abstract ideas.

The teacher acts as a facilitator of learning. Each teacher has participated in extensive training specialized for the age group they work with. The children build meaningful, complex activities and thought processes based on previous simpler ones. Concepts are always approached in the same manner—left to the right/top to bottom movements, meaningful experiences developing the five senses, increasing organization, and attention span. The children develop meaning from the environment moving from concrete to abstract understanding while increasing independence. The children make choices and manage their own time, as they become active, self-directed learners.

POWELL ACADEMY OF MILITARY SCIENCE

Through the National Middle School Cadet Corps, Powell Academy of Military Science parents and students will have access to a program with a 100-year history in JPS, the Junior Reserve Officer Training Corps. Jackson Public School District data reveals that JROTC students have the highest graduation rate as a subgroup compared to their non-JROTC counterparts. Scholarship opportunities for college are also awarded to qualifying students via colleges throughout the nation for continuing in ROTC programs. Research also indicates decreased disciplinary infractions for JROTC students. Thus, this program would allow students to compete in leadership roles with other Middle School Cadet Corps around the nation.

PRE-KINDERGARTEN (PRE-K) PROGRAM

The Pre-Kindergarten Program of the Jackson Public School District serves students with the greatest socio-economic as well as academic need. The mission of the program is to provide quality early childhood experiences based on the knowledge of child development principles and the understanding of how four-year-olds grow and learn. The program utilizes the “Curriculum for Fours” developed by the Mississippi Department of Education. It emphasizes developmentally-appropriate practices aiding in the development of the whole child. The supplemental curriculum provides a framework for teachers to plan learning experiences that draw upon the needs and interests of the children. It is designed around themes and topics supported through play and sensory learning. The document recognizes the significance of the early years and is designed to reduce the number of children who arrive at school with inadequate literacy-related knowledge.

RE-ENGAGING IN EDUCATION FOR ALL TO PROGRESS (REAP)

Re-engaging in Education for All to Progress (REAP) is a program designed for students who are considering dropping out of high school. This program provides an alternative path to a high school diploma. All students attending REAP must be enrolled in the Jackson Public School District. The mission of REAP is provide academic opportunities to the over-age, non-traditional, at risk of dropping out student, to help them attain a high school diploma. Students are referred to the program through the school's lead counselor. After their transcripts are assessed, if eligible, the student will then meet with REAP Coordinator and Counselor, with the parent present, to discuss their academic path through REAP. Students who attend the program have not been successful in the regular high school setting. The program's smaller class sizes allow teachers to provide individualized instruction, and the flexible scheduling options allow more students to successfully complete their high school career and receive a high school diploma. If admitted, with regular attendance, active class participation, remediation and review, parental involvement, and good conduct, students will complete the program in two years or less with a high school diploma from their home school. Students participating in this program are eligible to participate in commencement exercises during their home school's scheduled graduation.

STRINGS IN THE SCHOOLS PROGRAM – MISSISSIPPI SYMPHONY ORCHESTRA

Students throughout the district have the benefit of free instruction from professional members of the Mississippi Symphony Orchestra through the Strings in the Schools Program. Participation is limited to students in grades 3–12. Elementary classes in violin, viola, cello, and bass meet twice weekly, while secondary classes meet daily. As part of the program, the Mississippi Symphony Orchestra offers Kinder Concerts for lower elementary students and Young Peoples Concerts for upper elementary students. In addition, the symphony's small ensembles — the Symphony Woodwind Quintet, the Brass Quintet, and the String Quartet — provide informal concerts to introduce elementary students to the instruments of the orchestra. *(This program is offered each year, pending the availability of funding and approval by the Board of Trustees.)*

YOUTH COURT SCHOOL – HENLEY YOUNG

—Chapter 9: Attendance Reporting

When local school districts receive a report from a juvenile court that a student's probation has school attendance as a condition, the following rules will be followed—

1. a review will be conducted by the school administration to determine the most appropriate academic placement, the need for counseling and other social services, and the development of an instruction plan, if appropriate;
2. Parental involvement will be encouraged;
3. Alternative placement will be considered if the act necessitating the order would hinder the instructional program or place others at risk for their personal safety; and
4. the appropriate School Attendance Officer will be notified.

The Youth Court School is committed to providing a quality interim educational program that will allow each juvenile the opportunity to achieve a higher learning potential while being detained at the Henley-Young Juvenile Justice Detention Center. The Henley-Young Juvenile Center Youth Court judges, court administrator, detention director, counselors, teachers, and staff believe that all students can learn. Please visit the district's website for additional information.
