

Jazz Radio DJ Playlist Project:

You have finally made it and are hosting your own jazz radio show on 88.3WBGO!!!!!! Not only do you need to select appropriate songs for the playlist, but also be able to provide background information to listeners for each selection. Your first program will be a selection of material that starts with early New Orleans Jazz and progresses through the Hard Bop and Cool Jazz styles of the 1950's. Choose two songs for each of the following historical periods/ genres of jazz and include either a youtube, apple music or Spotify link where the song can be heard. In addition to listing the song title and artist, provide the requested additional background material for each selection:

- **Year recorded**
- **Song Composer**
- **2 styles traits representative of the genre that are heard on the recording**
- **Instrumentation and name of ALL musicians on recording**

********You may use artists listed in the Text (In fact, I highly recommend it)
however, you must choose songs NOT PROVIDED in the Book/
CD's********

Style Periods: (Choose 2 selections for each period):

1) Early New Orleans Jazz:

2) 1920's Jazz (This can include multiple styles such as Louis Armstrong's Hot 5, Stride Piano, Fletcher Henderson....)

3) Swing Era/ 1930/s (Choose one big band selection and one small group selection)

4) Bebop Era (1940's)

5) Vocal Jazz Selection (Choose a selection from the American songbook featuring a vocalist recorded in the 40's,50's or 60's)

6) Cool Jazz/ Hard Bop (1950's) - choose one selection for each category
