

Journal Club Instructions

The purpose of Journal Club is to explore current Health Informatic news or research articles and share them with your classmates.

1. Supply the complete bibliographic citation and a link for online sources.
2. Summarize the most important points of the article in a single sentence.
3. State why you chose the article and how it relates to the practice of health informatics now or in the future.

You may use any legitimate source for articles for Journal Club. Some suggestions for finding articles for Journal Club Postings are listed below:
