

Museum presentation which can be completed online by visiting the VMFA website.*THIS IS AN ONLINE ASSIGNMENT.**

See the specific projects in this module for details.

Now! Just to make my life more fun, you are going to submit your museum projects through Google Classroom.

Why in the name of Zeus would we do such a thing? VCU has not selected plagiarism software for Canvas. Every time you've had an assignment this semester that requires plagiarism software, I have had to manually download and submit each assignment to Blackboard's SafeAssign.

I don't think my computer, or my sanity for that matter, will survive downloading 120 projects. Google Classroom will allow a limited number of assignments to be checked in their plagiarism software, so we are going to try to take advantage of that.

If VCU adds their plagiarism software before the museum project is due, then OF COURSE I will switch us back to a Canvas submission. I will let you know. Until then, watch this video to figure out how to submit your project.

This assignment can be completed online by visiting the Virginia Museum of Fine Arts website and online collections.

Access VMFA website here: <https://www.vmfa.museum/>

You will complete this assignment using Google Slides.
