

Persuasive Essay Draft Review Considerations

You and a partner will exchange drafts.

Your task is to offer suggestions and to identify any logical fallacies or rifts in any metaphors.

Items to consider:

1. What is the writer's stance? Is it absolutely clear?
2. Identify any logical fallacies that need to be addressed in both the reasoning and any refutations.
3. Identify any potential rifts in any metaphors.
4. Did the writer achieve the purpose?
5. What were some positive aspects of the draft that stood out?

You do not need to comment on the APA, sources, or writing mechanics unless the writer requests this.
