ME 365: Systems and Measurements (with Lab)

(Report Title)

Lab report 4

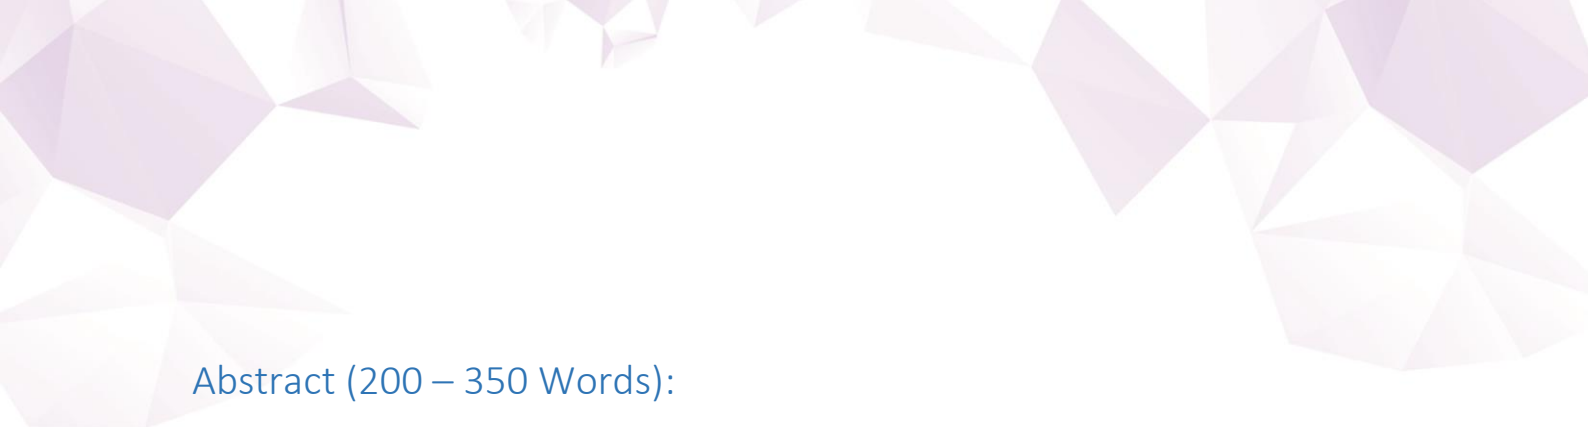

Student Name:	ID:

Instructor: Dr. XXXXXXXXX

Date: XX/XX/2020

Section: XX

Fall2020

Abstract (200 – 350 Words):

In your abstract, please explain the whole report. In many cases, people would read only the abstract of your report. Thus, abstract should be self-contained (the reader should understand it without reading the rest of the report). The abstract should also be meaningful and informative.

The abstract should be on a page of its own. But it does not need to fill the whole page.

Contents

Abstract (200 – 350 Words):	2
Introduction (Two pages):	4

Introduction (Two pages):

In introduction section, explain **Vernier caliper and micrometer**; definition, structure, types, accuracy, advantages and disadvantages and how does it work.
