

Answer the following question in regard to Human Rights and Cultural Relativism

- Answer the following question in 300+ words
- Watch the video (link provided)
- Use article (link provided) for analysis.

1. Dr. Steele discusses the debate over whether human rights are universal or relative. First, define universal human rights and cultural relativism. Then, using an example that is NOT from the video, provide an analysis of a human rights issue from both the perspective of universal human rights and cultural relativism. Which perspective do you think is correct for your example? Why or why not?

Use link for article to analyze from the universal human rights perspective and cultural relativism perspective.
