

SBI4U Nervous System Assignment : Human Diseases

Assignment:

Your assignment is to create a **ONE PAGE poster** (visual display) to illustrate a neurological or brain disease/disorder that affects human beings .

Information to include on poster:

- (1) Background Information
- (2) Symptoms
- (3) Treatments
- (4) Neurological changes that occur
- (5) Physiological changes that occur
- (6) Diagrams/Charts

** Your poster **MUST** include information on how it relates to the body systems, and specifically how the disease disrupts the body's homeostasis. **

Additional Information:

- ⑦ The poster should include your name, the teacher's name, course code and title of your report.
- ⑦ You must also have **at least 3 different sources**, which should be referenced in a bibliography elsewhere on the poster (properly cited)
- ⑦ Be sure to use your own words! **Plagiarism is NOT acceptable!**

Evaluation:

- Completeness of requirements
- Quality of research and information
- Poster board is organized, logical, and coherent
- Variety of reference materials
- Evidence of higher-level thinking in your report
- Use of visuals (pictures, diagrams, etc)

There will be no repetition. First come first serve!

Poster Marking Rubric

CATEGORY	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	TOTAL
----------	---------	---------	---------	---------	-------

Quality of Information and Referencing (required research information)	- has little of the required information and proper referencing	- has some of the required information and proper referencing	- has all of the required information and proper referencing	- has given all of the required information, plus additional material and proper references	/4
Spelling/ Grammar	- serious errors in final product	- some serious errors in final product	- a few minor errors	-no errors in final product	/4
Text (labels and text)	- labels/text are too small to view - missing important labels - no explanation of labels - no variety of size of font to indicate headings from explanation	- labels/text can easily be read from a meter away - labels/text are horizontal - most items of importance are labeled	- labels/text can be read from meter away - almost all items of importance are labeled with horizontal labels/text - designation between labels and text explanation	- all items of importance are clearly labeled and easily read from a meter away - size of font indicating importance - creativity in display of text but does not distract from legibility	/4
Graphics	- graphics are not relate to topic or obvious - graphics are missing - graphics are of poor quality - graphics are not explained	- all graphics are related to topic and most important ones are include - graphics are of adequate quality - some explanation to graphics	- all graphics are related to topic and most aid in understanding of topic - most graphics are clear and of good quality	- all graphics are related to topic and aid in understanding of topic - all graphics are clear and of good quality	/4

Creativity and Attractiveness	<ul style="list-style-type: none"> - little imagination or creativity shown - distractingly messy - poor organization of design - no thought to interactive nature of poster 	<ul style="list-style-type: none"> - some imagination or creativity shown - shows some thought to organization but is difficult to follow - attractive but a bit messy - at least one aspect of poster is interactive 	<ul style="list-style-type: none"> - attractive in terms of design, layout and neatness - some aspects are interactive but not well built in to design 	<ul style="list-style-type: none"> - exceptionally attractive in terms of design, layout and neatness - original/creative design with respect to visual display and interactive quality 	/8
