

Watch Secrets of the Psychics (the Amazing Randi), 1 hour. Then, answer the questions below

<https://youtu.be/41hJ6DY8xLI>

Questions about the Randi video “Secrets of the Psychics” (1)

1) Which biases seem to be working in each of the various episodes (some 6 or so major ones)? Identify the episode and find at least 2 biases for each. (Try to bring up different biases, not just the same all the time, although they may apply...).

2) Why do you think people didn't change their mind about Uri Geller despite the Tonight show incident and Randi's later book about him? Which biases may have been working here?

3) What was the experiment that Randi's friend, the psychologist Ray Hyman, told us he was conducting when he as a college student was playing palm reader? What was the result, and how might that be explained?

4) What were some biases involved in the research in the Russian Institute of the Brain? What did Randi introduce in the Institute of Brain Research protocol that the scientists didn't have? What was the effect?
