

**The purpose of this assignment** is to provide an opportunity for students to apply the nursing process while planning education to meet the needs of patients.

**Instructions** (from Blackboard):

- Develop a teaching plan based on an assigned scenario or case.
- Determine what elements you would include in your assessment of the learner. Identify anticipated or expected learner needs.
- Select and prioritize evidence based teaching strategies that would best meet the needs of the learner.
- Describe the resources you would provide to enhance learning.
- Explain methods that would be used to evaluate learning outcomes.
- Provide rationales for elements of your teaching plan supported by references from the required course reading assignments.
- Use the teaching plan format assigned.
- The competencies contained in the Teaching Plan Rubric will be assessed through this assignment.

## Guidelines for Teaching Plan

### Part One

1. Cover page (APA format)

2. **Use the following headings:**

a) Title of Teaching Plan (**Introduce** your given topic, plus researched/cited info about your population's disability/disease)

b) **Learning Needs Assessment** (Rational as to why have a needs assessment. Sources of information: Use Miller's, Taylor's, or Potter & Perris' book); you need use these resources, in addition to the needs of the specific/population given.

c) **Educational Theory** (Based on the pt.'s age-i.e. Knowles' Adult learning: Andragogy or Pedagogy (Miller's chapter 5, 6 & 7).

d) **Learning Style** (Based on the pt.'s generation: Millennial, Gen X, Baby Boomer, etc. PPP: Facts of Teaching/Learning.

e) **Readiness of the Learner** (Miller's chapter 6 (Adult Learner), or Potter & Perris' book.

f) Learning objectives (What are they? Miller's chapter 10.

g) Learning outcomes (What are they? Miller's chapter 10.

### Part Two

1) **Educational Plan (Template)**. Use the specific format provided. Include the following as headings:

2) **Learning Outcomes** (See Educational Template) write **only one**

3) **Learning objectives** (Select a verb from each Bloom's list: Write One Cognitive, one, Affective, one Psychomotor).

4) **Teaching Content** (add only topics that will teach the objective- **at least 3 topics**)

5) **Instructional materials/methods** (what modality will help you teach the objective? Which of these will you use? Audio? Video, PPP, role playing? Demonstration? Make sure your selection is based on your population's capabilities.

6) **Evaluation** (How are you going to evaluate that the pt. learned the objective? You need to use tools that measure the learning.

7) **Reference Page** (APA format-6<sup>th</sup> or 7<sup>th</sup> edition-sample is in 7<sup>th</sup> ). (APA is strictly followed).
