

By you failing your second exam there is no way you make an A. Even with a 100% the highest grade you can make is a 77%.

Scenario 1. If you buckle down and make a 95 on Exam 3, you'll have a 77%.

Scenario 2. If you earn 12% higher(57%) than Exam 2 you'll have a 72%.

Scenario 3. The lowest grade you can make is a 34% to get a C (70%).

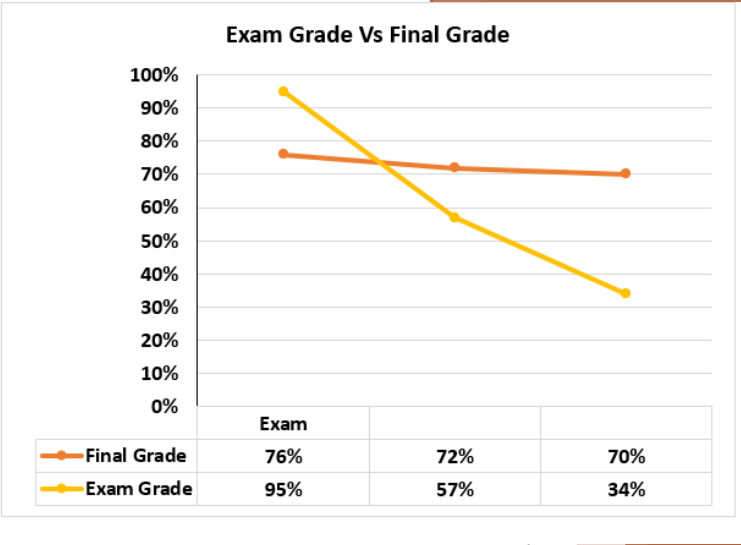

My advice to you is to do your best by making a 95. It is important to do your best no matter what. This pride and integrity will take you a long way.

This shows how the exams have a large “weight” on your final grade.
