

Personal Finance – Unit 8 – On Your Own

Vocabulary Sheet- Please give the definition of each word, and then use it in a complete sentence. Make sure the definition of the word is in a financial context. When talking about finances, we often use the term “saving”. A quick Google search says that saving means “preservation from danger or destruction”. Although this is a correct definition it is not the one we are looking for when we discuss finances. Even though we want you to do online research throughout this course, always make sure that you read and understand the context before using it in your assignments.
