Factors affect the freezing-point depression of a solution?

solute
depression constant

the following data when measuring the freezing-point of an aqueous solution. What is the freezing-point of the solution?

ing curve from 0 to 300 seconds

Cooling curve expanded from 85 to 145 seconds

Time (s)	Temperature (°C)
0	40
85	20
145	20
300	0
