

Abigail H. (Gr 3)
11/2018

My favorite things to learn about are science, math, riding a horse, caring for my rabbit, veterinarian work, engineering, astronomy, saints, and my religion.

I do like to read, I Love it!
I like to read fun stories, to read about adventures, and learn about things I am interested in doing some day.

Yes, my family and I travel around the world. In the United States, I have been to Washington, Idaho, Pennsylvania, Virginia, North Carolina, Montana, Nevada and California. In Southeast Asia, I have been to Japan, Bali (Indonesia), Southern Thailand, and Singapore.
