Alcohol (g)	0.00			Do not exceed 2 standard drinks for men and 1 standard drink for women+
Caffeine (mg)	35.40			Up to 400 mg (three to five 8-oz cups of coffee per day)+

* Dietary Reference Intakes

+ 2015 Dietary Guidelines for Americans

++The nutrient content of the items in the MDA food database depend on manufacturers' reporting accurate information. Since many do not have data yet on added sugars, this number may not be an accurate reflection of added sugar intake.

~ Protein recommendations have not been adjusted to take into account endurance/strength athletes who fall into the active and very active categories, but do take into account pregnancy and lactation.
