

assignment instruction

part one respond to there posts individually that means answer under each topic your respond

1-

Propose an ethical framework for decision making that may be used in cases of policy or law dilemmas. Consider your readings and the key areas of professional ethics. How might additional monitoring be required in your work setting?

Your post should be a minimum of 150 words.

Resources:

Ethics Toolkit. http://www.ache.org/abt_ache/ethicstoolkit/ethicsTOC.cfm

2-

There are a number of pieces of technology that help health care professionals perform job duties, track organizational and team performance, and stay on top of patient health indicators.

The purpose of this discussion is to share technologies that help make the work of health care professionals better. With this in mind, describe two pieces of technology that you use in your work. Let your fellow learners know what each one helps you do and how it helps improve the quality or outcome of your work. If you are not currently working in the health care field, you can either share technology you have used in the past, or research two pieces of technology commonly used by health care professionals to share with your peers.

Again, the purpose of this discussion is to generate a lively discussion of how technology is helping in everyone's practice today. So, while you should write clearly and accurately, worry less about APA style and more about engaging with your peers and sharing experiences.

3- What is the purpose of the Healthy People initiative? How does the Healthy People initiative advance population health and reduce health disparities? Consider your reading and research healthypeople.gov to gain some additional insight.

part two in a different file

Current Event (use the formate style)

Focus on a current *health* administration and/or policy issue. Current means the article must have been written within a two week time-period of the article due date. Students may not use Yahoo, People magazine, or other tabloid based sources. Acceptable sources include (but are not limited to): Time Magazine, Wall Street Journal, USA Today, CNN, etc.

- Each current event submission must include:
 - Summary of the article (12.5 points)

- Include your opinion of the topic discussed. Do you agree? Disagree?
How did the article make you feel? (12.5 points)
