

Book name: Parkinson's Disease book"

By: Professor Anthony Schapira FMedSci

Report on the middle chapters of the book. It is important that you provide more information than "I liked this part." Tell the reader what was covered, key points examined, what you learned, etc. If the author brings up points you agree/disagree on, let us know what those are and why. If we cover concepts in class related to the material, expand on it and tell how it adds to the information or perhaps contradicts information.

instruction :

Each discussion board entry should be a minimum of 350-400 words in length. Grammar, punctuation, and spelling will count towards your grade. (For example, I will deduct one point for each non- capitalized letter "I", e.g., i'm, i.)
