

CYBERFEMINISM

it is a genre of contemporary feminism that foregrounds the relationship between women and technology.

CYBERFEMINISM MUST BE ADEQUATE TO ITS CYBER POTENTIAL THEN IT MUST MUTATE TO KEEP UP WITH THE SHIFTING COMPLEXITIES OF SOCIAL REALITIES AND LIVING CONDITIONS AS THEY ARE ALTERED.

Promoting cyberfeminism

Exploring and re-making the internet.

including women in technology discussions

Avoiding gender inequality and discrimination.

cyberfeminism takes cyberspace and the internet as a means of freedom from social constructs of sex, gender inequality, and racial discrimination.
