The NFL Protest are Patriotic

Interpretation:

The article has indicated the significance of protest in eliminating social injustices such as racial discrimination. Activists have used demonstrations throughout the years to bring a better chance in the country. Thus, the government should focus on activities that improve individual's life rather than promoting prison systems and police brutality.

Audience:

American citizens are the target audience in the media piece. Moreover, individuals need to be shown that there is a better way of creating a just society free from discrimination and criminal injustices through protest and other social activism.

Purpose:

The article has concentrated on informing people of the significance of protest in enhancing the country's progress. Therefore, the administration is urged to react and transform the prison system and police brutality. Also, the article has used examples of how some individuals have brought change through protest.

Content:

The protest should be allowed to change society. However, some leaders such as Donald Trump argue they are patriotic to the flag, but it contradicts what they do.

Mood:

The mood is persuasive and aggressive because Legend has used past stories to show the reader that protest is a tool to solve problems facing the country and society. He persuades the readers to agree with his thinking about the protest being patriotic.

Style:

John has utilized many pathos and logos to influence people to feel how he deliberates on the situation. Also, the argument presented on football players in the backup of protest president Trump is violent. He portrays how protest is good and makes America great, is persuasive, and adds that if he had a chance, he could go and kneel with the football players.

Structure:

The structure used is based on the arrangement of information paragraph forms with short sentences to emphasize long sentences for additional information. John has begun with how president Trump thinks about being patriotic to the flag while interfering with individuals' welfare and right. Then developed a past organized achievement of protests and concluded on how it has shaped American Society.
