

Research a recent article (online) that describes an international finance application - something we have discussed in class, or covered in our chapters.

- provide the link to the article
- explain how the article is related to our work, and the connections that can be made
- 3-4 pages Discussion Paper to make the connection - (double-spaced)
- include any reference materials or loose points

Possible topics

- divestiture, acquisitions
- International Corporate Governance
- Currency Risk
- Tax / Tariff examples and situations
- Valuation of an acquisition
- forecasting exchange rates/Foreign Exchange Markets
- Inflation
- Transaction/Translation exposure
- FX Arbitrage
- examples of business using hedges
- Government Influence and impact
