Project Title

Should juveniles be tried as adults in criminal justice system?

Research Questions/ Statement of the Problem

1. Why should offender juveniles be tried and treated as adults?

This question will seek to answer whether it is right or not to try juveniles in the adult criminal courts.

2. What effect does trying juveniles as adults have in the rehabilitation process of those juveniles?

This question will attempt to answer the possible effects that trying juveniles in adults' criminal justice system have on their general process of rehabilitation.

3. Is trying juveniles in adult criminal justice system effective?

This question will try to find effectiveness of trying juveniles in adults' criminal justice system.

Research Methodology

Doing intense search of legal, social science, and scientific studies that relate to the topic will be of great help since it will give an idea from the findings of other researchers concerning the topic of study. Besides, legal searches will equip with laws guiding the trying of the juveniles, social science searches will give society's perspective on the topic and scientific searches will help find the relevant scientific realities guiding the topic. Case laws on such a topic will also be visited.

Literature Review

This part involves studying the necessary literature publications that relate to the topic. Books, journals, blogs, and articles related to the above topic will be important because they will help develop findings appropriately.

Policy Analysis

After proper topic research, policies like juvenile justice and delinquency prevention act, prison overcrowding, school safety, and national security policies will be analyzed within the research topic.

Program Development

The research will consider the role of programs like parental involvement, collaborative effort, and continuum of services as effective ways of juvenile rehabilitation.

IRB Approval

Since the research is majorly based on the existing laws and social and scientific research, the methodologies require no IRB approval. Finding of the research topic will hence be published.
