

The Task: Conduct an ethics audit for your country.

- **Step 1 – Research** - Using the internet, research each ethical issue category below and assess if it is a major issue.

Google Search Example: **Ethics + Issues + Insert Category + Insert Country**

- **Step 2 – Analyse** - Decide if the category is relevant or not. If there are no major ethical issues, then do not include the category in your audit.
- **Step 3 – Organize** - Use the categories below as subheadings.
- **Step 4 – Describe** – Briefly describe the nature of the ethical issue.
- **Step 5 – Explain** – Briefly explain why the issue is unethical with respect to conducting business in that country.
