

The Task: Prepare a risk assessment for your selected country. For each risk category you will:

- *Risk Overview - Write 1 paragraph describing the general level of risk in the category.*
- *Risk Rating - Using a scale of 1 to 5, with "5" being a high-risk country and "1" being a low-risk country, how would you measure your IBP country according to "risk" generally?*
- *Risk Mitigation - Select 2 major risks. For each risk, describe one way you can offset or deal with it (a solution).*

The Risk Categories

- Political risk - Include government policies and controls that affect prices and currency values.

- Economic/financial risk (be sure to focus on the currency of your country) - include government policies and controls that affect prices and currency values.

- Social/cultural risk - Missed opportunities based on ignorance of cultural practices of the country.

- Technical-commercial risk - Potential losses arising from the trading partners or the market. It is important to secure that the trading partners are reliable.

- Natural/physical risk - Potential for natural disasters.
