# PREGNANCY AND COVID-19

Capstone Week 6 Discussion

## Questions Concerning the Final Argument Paper

- Can SARS-CoV-2 cross the placenta?
- Does COVID-19 cause premature birth?
- Do pregnant women with either confirmed or suspected COVID-19 require to deliver their babies through caesarean section?
- How can prenatal care be modified to reduce risks of COVID-19?
- How should labor pain be managed in expectant women with COVID-19?

# Time Management Plan

COVID-19

## Compiling and Editing

First week

- Performing a preliminary search for the information for the topic and gathering materials

Second week

- Evaluation of sources to determine their credibility and making notes

Third week

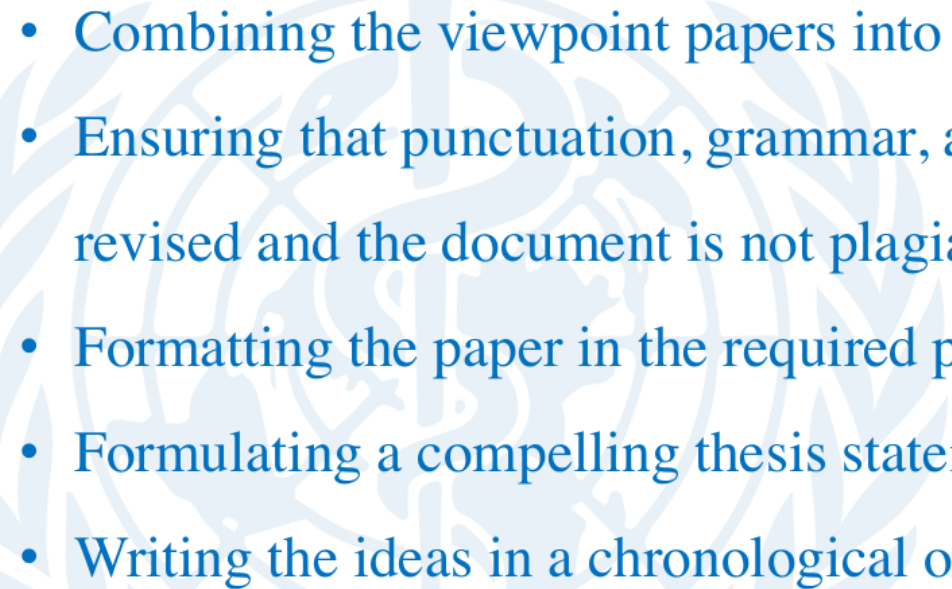

- Writing and editing the paper and citing sources correctly

Fourth week

- Proofreading the final paper to check for errors in grammar, spelling, and punctuation

## Parts of the Final Paper Likely Take Most Time and Attention

- Combining the viewpoint papers into a single document
  - Ensuring that punctuation, grammar, and spelling are well revised and the document is not plagiarized
  - Formatting the paper in the required paper format
  - Formulating a compelling thesis statement
  - Writing the ideas in a chronological order
-
