

Persuasive speech with visual aid

Sample outline

Introduction

- I. Charity is an act of kindness that can contribute to community building.
- II. Through charity, we create a deeper sense of community with each other.
- III. I would like to discuss the importance of charity
- IV. Help you realize that giving charity helps to make the community a better place

At this time, I would like to preview the three points of my discussion...

- A. The importance of being charitable
- B. The benefits of charity
- C. Various ways of giving charity

(Transition: I would like to begin with charity importance ...)

Body

- I. Without charity, the world wouldn't be able to function as well as it does with the help of others.
- A. Giving charity can change the lives of people in need in any part of the world, especially who are the victims of war, natural disaster, hunger, disease, poverty, and orphans.
- B. According to Charles P. Pierce (2008) "When giving away your money, it helps to think of it as more than bits of paper and scraps of metal. That's not a \$20 bill you're slipping into the envelope there. It's a bagful of flour. It's soup or a blanket or a bottle of medicine."
- C. According to supplemental poverty measure (2018) "the poverty rate was 14.0% and one in three Americans says they have stopped getting medical treatment that they or their family members need because of the cost."

(Transition: After you realize the importance of charity, now let's move to the advantages of charity)

II. Charity has countless benefits.

- A. When you give charity, you experience happiness. A German study provides ample evidence that people who give more to others – in both time and resources – experience greater satisfaction in life than people who do not (2007).**
- B. Charity reduces rates of stress. A researcher at the University of Tennessee found that charitable givers experience reduced rates of stress compared to those who do not give. (2014)**
- C. Giving charity makes you realize that every little bit helps. Even with small donations, you can make a large impact in a community.**
- D. Get a Tax Deduction. According to Gary Tuttle (2018) "charitable contributions can be deducted up to 50% of your Adjusted Gross Income."**

(transition: I have discussed the benefits of charity. Finally, I will inform you with the forms of charity.)

III. There are many ways people can help others through charity and volunteering

- A. Give time. This means serving meals in a shelter, helping during disaster relief, volunteering to drive seniors to appointments, and baking dinner for a sick neighbor.**
- B. Give money to provide aid, food, shelter, or clothing; or donating to a local or global**
- C. Give talent, skills and knowledge, such as teaching, gardening, cooking, knitting, or singing**
- D. Give Essence, make exhausted young mother laugh; listen patiently to a man sharing his story of being fired; encourage someone who feels depressed.**

Conclusion

- I. In conclusion, I would like to summarize the main points...
 - A. Charity importance
 - B. Advantages of charity
 - C. Forms of charity
- II. The greatest gift that you can give to the community would be when you contribute to making lives better.
- III. Remember that giving to others is just plain good for you.
